Tony,

Julia Williams suggested I should include you on Ms. Hussey's communications about ongoing drainage issues along Fordhaven Road, particularly at 2900 Fordhaven Road which is currently being reviewed for a new development.

Please note the drainage issues faced along Fordhaven Road as 2900 Fordhaven Road's development is reviewed.

Hello
I live on Fordhaven Road across from your property at 2900 Fordhaven Road.
We do get serious run off from the hill each time it rains. Ask case manager Ms. Clark for the photos I sent her. We have been flooded out because of the creek as well.
You need to fix the private road you own as it is flooding and pooling each time it rains. It needs to be widened and repaved.
If you have your apartments at 2900 Fordhaven Road your entrance is going to be right into my building's drive way.
People making the left hand turn will go into our at Cardinal Oaks drive way, hit cars, the dumpster, and the building.
There is no street lighting at night on Fordhaven Road. People leave their cars parked in the street at night and day.
Twice each day we have massive traffic from the Y people dropping off someone for a Y program.
If we are making a left left turn into our drive way, we might be hit by a car trying to make a left hand turn and or traffic from the Y.
How are the residents supposed to get out of driveway in the first place, if your entrance is straight across from ours?
And factor in the Y traffic.

Thank you for your email. I would be happy to discuss the proposal with you on the phone as it seems you have several concerns. I will say a couple of things in response to your questions. The proposed apartment development will be reviewed by MSD to ensure that the stormwater runoff generated by the development is captured on site and released at a rate that is equivalent to what it was prior to construction. The proposed apartments will install a drainage system to capture the stormwater runoff. I certainly understand your concern as far as the traffic goes, I believe that the YMCA is a great asset for the local community and will be for the future residents of this proposal. The residents of this proposed apartment community will have the ability to walk to the Y and possibly will not be generating additional traffic when using their facilities. The road currently has anywhere from +/- 27' to 30' of pavement width which is wider than the 24' which is standard for road construction in Jefferson County. Please note that the development site is currently zoned correctly for this development and the proposed 9.72 dwelling units per acre is far under the 17.42 acres that would be allowed by the current zoning regulations. Thank you for your input, we take all comments into

consideration when moving forward. Once again, I would be happy to discuss your concerns with you on the phone 426-9374.

Hello

These photos were taken around 7:30 am this morning. 7/30/2022.

This is the east side ditch run off going into the Creek. The drain opening across on the Fordhaven road side not a drop of run off is going into the creek. Why the run off congregates and runs into Fordhaven road from the y.

I was told to send this Y problem we are having with the Y visitors speeding all of the time to your office. Do not get mad at the messenger , Metro does need to address the the free pass the Y guests get in speeding before someone gets hit and killed. Or do not their lives matter to the Y guests? There are kids here that have no playgorund to safety to play at so they play in the street.

Subject: Speeders

What is Metro going to do about the guests speeding to and from the Y?
Metro can wait until there is an accident or kid getting hit and killed I guess.
Another day another day watching some one speeding since they have the Y privilege to do so. Must be nice.
One other thing, if the Y is supposed to be inclusive why can't the neighborhood kids use the Y playground? I have seen the parents and kids ordered off of the Y playground saying it is for members only.
The families in the apartments on Fordhaven Road have no playground to play at unless they sneak over to the elementary school.and they do so.

Hello

If Metro does does not do anything about the Y visitors speeding up and down Fordhaven Road, I guess going to the local news stations is in order. I am sure Metro would like that bad press that they are not addressing the public safety life and death concerns of a resident. Is it if we live in a low income hood, with section 8 residents, our lives and property does not matter?

CW Stewart's Office need to permanently address the issue not the case manager for The Planning Committee.

I was told to send this Y problem we are having with the Y visitors speeding all of the time to your office. Do not get mad at the messenger ,
Metro does need to address the the free pass the Y guests get in speeding before someone gets hit and killed. Or do not their lives matter to the Y guests?
There are kids here that have no playground to safety to play at so they play in the street.

Hello

You can see the rise in run off from 8 am to 11 am from the West ditch of Cardinal Oaks. Look at how the run off water and creek is almost to the lip of the drain opening, in the second photo (r) than on the left.

Not to mention that the ditch run off was moving faster with more run off than at 8 am. Those photos were sent at different times on the same day July 26 to show the time lapse of how fast the water rises and pools.

This is the fly away trash Big Run Creek gets now. Yes people in the apartments complexes on Fordhaven Road do dump cans and vacuum cleaners, mattresses, and grills into the creek. The runoff from the proposed apartments retention pond would increase the pollution and trash flowing into the Ohio River. '

You are not going to have that problem if the area remains zoned single family homes non commercial. Not to mention less drivers who feel the need to speed while on Fordhaven Road.

There are no sidewalks on Fordhaven Road so adults and kids have to walk in the street. They have to stand in the street at the entrance waiting for the school buses when it is dark with no street lighting.

That is an accident waiting to happen as a car could plow into a group of kids, parents when they daily have to walk in total darkness in the street and wait at the entrance with the Y guests feeling the need for speed to get out of Dodge and on to work.

The speeders from the Y really do not care and refuse to slow down. The Y drivers are inconvenienced when they have to slow down when someone walking in the street. There are no sidewalks for the kids and parents to walk safely and not in the street. So they are forced to walk in the street to get to point A to point C and at the entrance, risking being hit by a speeding motorist.

In response to your follow up email, we are proposing the construction of sidewalks in front of our development as part of the submittal. The site is currently zoned R-6 which is Residential multi-family. We are not asking for any kind of change in zoning on the property, nor are we proposing any kind of commercial use. Again, I would be happy to speak to you about the proposal I can be reached at 502-426-9374.
