RE: Case No 21-CUPPA-0224
Summary of Neighborhood Meeting

To Louisville Metro Council:

According to protocol for the Conditional Use Permit, we planned an informational meeting for March 3, 2022 for the neighbors and notified Tier 1 and Tier 2 neighbors. There was a set-back in notification to Metro, but we held the meeting as planned and scheduled a second meeting for March 24, 2022.

The first meeting was proctored by Amber Willetts, as Representative for the property. My husband took ill and we could not attend the meeting. Amber constructed a short Power Point presentation that had very basic information regarding some of the options we had for the garage which included re-zoning the property. Amber, being unfamiliar with the protocol for rezoning, did not have answers to the questions raised regarding re-zoning the property. Some of the neighbors became anxious that we planned to remove the dead-end barricade on our street if the property were rezoned. They felt that would cause traffic, bringing other neighborhood problems from the nearby apartments on the other side.

At the second meeting, I presented an informational Power Point on Louisville's Plan 2040, the need for ADU's across the nation and their usefulness in cities addressing housing issues. They were assured that there we have no intention of removing the dead-end and they seemed satisfied with that.

After the meeting, I spoke with many individual neighbors, who stated that they have no problem with my proposal for the garage, they just don't want the barrier removed and didn't fully understand what was taking place at the initial meeting regarding this proposal.

In conclusion, it appears that all questions were answered and the neighbors were satisfied with the results of my proposal of creating an ADU.

Thank you for your time and consideration.
