Certification Statement: A certification statement must be submitted with any application in which the owner(s) of the subject property is (are) a limited liability company, corporation, partnership, association, trustee, etc., or if someone other than the owner(s) of record sign(s) the application.

I, Jim Calvery, in my capacity as Member & VP, hereby
representative/authorized agent/other

certify that Tyler Center, LLC. / Longboat Properties, LLC. is (are) the owner(s) of the property which
name of LLC / corporation / partnership / association / etc.

is the subject of this application and that I am authorized to sign this application on behalf of the owner(s).

Signature: [Signature] Date: 1-28-15

I understand that knowingly providing false information on this application may result in any action taken hereon being declared null and void. I further understand that pursuant to KRS 523.010, et seq. knowingly making a material false statement, or otherwise providing false information with the intent to mislead a public servant in the performance of his/her duty is punishable as a Class B misdemeanor.

District Development Plan Justification:

In order to justify approval of any district development plan, the Planning Commission considers the following criteria. Please answer all of the following items. Use additional sheets if needed. A response of yes, no, or N/A is not acceptable.

- 1. Are there any natural resources on the property, including trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites? And are these natural resources being preserved?**

The property is currently an existing 'big box' retail center and does not contain any natural resources on the property.

PLANNING &
DESIGN SERVICES

- 2. Is safe and efficient vehicular and pedestrian transportation provided both within the development and the community?**

The proposed redevelopment improvements will maintain existing vehicular access and enhance community pedestrian access into the site and along Kerrick Lane.

- 3. Is sufficient open space (scenic and recreational) to meet the needs of the proposed development being provided?**

The property is currently an existing 'big box' retail center and does not contain any open space. The proposed redevelopment improvements will enhance the amount of greenspace (open space) onsite and along Dixie Hwy and Kerrick Lane.

- 4. Are provisions for adequate drainage facilities provided on the subject site in order to prevent drainage problems from occurring on the subject site or within the community?**

The property is currently an existing 'big box' retail center with surface drainage to an existing outlet at the rear of the property. The proposed redevelopment improvements will maintain the existing drainage pattern and will not impact the community.

- 5. Is the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses compatible with the existing and projected future development of the area?**

The proposed redevelopment improvements will enhance the existing commercial corridor and maintain compatibility with existing developments in the area. No projected future development outside this project is identified for this area.

- 6. Is the proposal in conformance with the Comprehensive Plan and Land Development Code?**

The proposed redevelopment improvements will be in conformance with the Comprehensive Plan and Land Development Code.

Re: Revised Detailed District Development Plan – Letter of Explanation

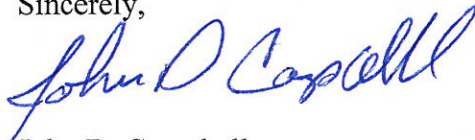

Dear Staff:

On behalf of Nicklies Development we are submitting the attached Revised Detailed District Development Plan for revisions to an existing retail center located at 6650 Dixie Hwy.

Improvements to the site include creation of two outlots along Dixie Highway with a partial demolition of the existing 'big box' retail building into a smaller neighborhood serving retail building. The proposed outlots will enhance the visual appearance of Dixie Hwy with a landscape buffer area and plantings. The proposed outlots will create new building facades closer to the public roadway. This will provide for a more pedestrian scale. Walks will be constructed along Kerrick Lane and internal to the site to promote connectivity both internally with the proposed uses and with the neighborhood.

Thank you for your consideration; please advise us immediately if additional information is needed.

Sincerely,

John D. Campbell
