Re: Access to Seatonville Rd

David,

Per your request, we reviewed the current access to the above address. Consequently, the fire department cannot access your home using the gated entrance. The turn radius is too tight for our apparatus to adequately access your property. In addition, when I reviewed the site plan in July, the plan showed the new driveway connecting to Seatonville Rd (and not being routed through another entrance).

Therefore, the fire department is requesting that your driveway connect directly to Seatonville as previously approved.

If you have any questions, let me know.

Sincerely
