Easement

Concrete Pad

Yes

Boarding Area

Yes

Shelter

Bench

Yes

Lighting

Trash Receptacle

Yes

Urban Services District

Yes

Park and TARC

Comments

TARC recommends that the Owner/ Developer construct a 5x20 ft concrete pad behind the sidewalk that lines up with the concrete boarding area shown on the plan (thank you!) between the sidewalk and curb. TARC will install amenities on the concrete pad. TARC requests the addition of a Binding Element or a Note on the Plan: "The Owner / Developer will maintain the transit stop on an as needed basis." Please show proposed improvements to the TARC bus stop on the revised plan.
