Subject: case number, DRC Case 16MOD1010 Shiraz

Dante,

Please send my message below to the DRC members.

Dear DRC members,

I strongly oppose the request by Shiraz in Chamberlain Pointe to change a binding element to allow a free standing sign. Shiraz was aware of this binding element when it located its business at Chamberlain Pointe. This commercial center business standard binding element does not allow them to have their own standing sign. There is no reason to exempt Shiraz from compiling with this binding element. As you are aware Shiraz has attempted to disregard this binding element in the past by installing illegal signs on KY 22. I urge you to not allow Shiraz to disregard this standard binding element as it is not in the best interest of our community.
