Project Description (use additional sheets if needed):

This project will:

(1) Create 2 new entrances to the Frazier History Museum which will provide a more welcoming and visitor-friendly main entrance, strengthen the Museum's operational capability and allow it to undertake future interior renovations required to grow visitation and make it a sustainable operation. These new entrances are designed to strengthen the Museum's street presence in a manner that is respectful of Main Street's historical character.

(2) Create, in conjunction with the new main entrance, a park environment (generally open for public use) which will provide enhanced experiences for W Main Street pedestrians and visitors. The north entry to this park will enhance the character of Washington Street and provide to visitors, parking in lots along Washington Street, direct access to W Main Street. The Frazier Museum will maintain the park and occasionally use it for events.

(3) Enhance the exterior character of 821 and 823 W Main Street making it more appealing to prospective tenants and strengthening its visual association to the Frazier. Exterior renovations will include creating direct access to the new park, a rooftop deck for outdoor seating (dining), new storefronts and tenant signage.
