Project Description (use additional sheets if needed):

This request is for the non-emergency, code enforcement and nuisance abatement demolition of the structure located at 965 S 7th Street. This structure has been vacant since 2004 and code enforcement has inspected it over 100 times in the last 17 years. The property has been abandoned by the owners and has accumulated over \$56,000 in property maintenance fines and penalties. This structure is dilapidated and dangerous and was referred to the Office of Vacant & Public Property Administration for demolition on 2/8/17 per Chapter 156.807 of the Property Maintenance Code which states, "The Code Official shall order the owner of premises upon which is located any structure or part thereof, which in the Code Official's judgment is so old, dilapidated or has become so out of repair as to be dangerous, unsafe, unsanitary or otherwise unfit for human habitation or occupancy, and to demolish and remove such structure or part thereof."

Building Inspector Allen Porter inspected this structure on 2/23/17 and found it to be in severe disrepair. The wall, floor, and roof assemblies, as well as the brick foundation, are extremely deteriorated. He also observed that the cornice and box gutters are extremely deteriorated and are falling from the structure. His assessment is that this building is structurally unsalvageable.

We do not make this request lightly, however this property has been allowed to fall into such disrepair that it has become a danger to the public and is a significant nuisance to surrounding residents.
