RE: Glen Ridge Health Care Campus (Expansion)

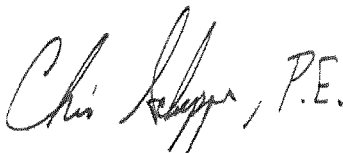

Dear Sir or Madam:

We are expanding the Glen Ridge addition for two specific reasons. The first is to increase the number of private skilled nursing rooms within the facility. The original floor plan had a large number of semi-private rooms and by adding the addition, the campus will be able to offer additional private rooms to the skilled residents in the community. The second reason is to increase the number of personal care beds at this facility. Because this campus has a high number of rehab residents, there is a high demand for personal care beds in order for residents who feel they need to rehab longer than their allotted stay on the skilled side to still be able to stay in the campus.

The facility will be expanded from 67 to 82 beds.

If you have any question or comments please contact me at (502)727-1634 and I will assist accordingly.

Thanks,

Chris Schipper
