# Planning Commission Staff Report

December 21, 2017

Case No: 17ZONE1052 Reguest: R-5A to OR-1

Project Name: Payne Street Office Location: 1701 Payne Street

Owner: Lowes Investment Properties

Applicant: Chip Summers

Representative: Bardenwerper, Talbott & Roberts, PLLC

Jurisdiction: Louisville Metro Council District: 9 – Bill Hollander

Case Manager: Laura Mattingly, AICP, Planner II

#### **REQUEST**

- Change in zoning from R-5A to OR-1 on .62 acres
- Detailed District Development Plan

#### **CASE SUMMARY/BACKGROUND**

The applicant is proposing a change in use from a transitional home to an office use on two lots located at the corner of Payne Street and S. Charlton Street in the Clifton neighborhood and Historic Preservation District. The structure is existing and the applicant is not proposing any changes to the site, with the exception of restriping for parking and the addition of landscaping. The existing Conditional Use Permit for a rehabilitation home will be abandoned along with the associated conditions of approval.

#### **Previous Cases:**

B-13943-10- A Conditional Use Permit for a rehabilitation home in a residential district.

#### STAFF FINDINGS

Staff finds that the proposal meets the standard of review and complies with the Land Development Code and Cornerstone 2020. The proposal is utilizing an existing structure within the Traditional Neighborhood form and bringing a new use to a currently vacant building within a mixed-use neighborhood. By preserving the structure on site the proposal also maintains the character of the area. The proposed use will serve the neighborhood and is easily accessible via transit, with a major transit route along Payne Street. With the existing network of streets and sidewalk, along with adequate parking facilities, the site is also easily accessible for pedestrians as well as vehicles. All required landscaping is provided that will aide in mitigating any possible nuisance from the adjacent residences. This proposal is for a compatible, desired use within a stable historic neighborhood that will contribute to the diversity and character of the area.

#### **TECHNICAL REVIEW**

Transportation and MSD have given preliminary approvals.

#### **INTERESTED PARTY COMMENTS**

Staff has received a letter of support from the Clifton Neighborhood Association.

#### STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

- 1. <u>The proposed form district/rezoning change complies with the applicable guidelines and policies</u> Cornerstone 2020; **OR**
- 2. <u>The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; **OR**</u>
- 3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

#### STAFF ANALYSIS FOR REZONING

Following is staff's analysis of the proposed rezoning against the Guidelines and Policies of Cornerstone 2020.

#### The site is located in the Traditional Neighborhood Form District

The Traditional Neighborhood Form District is characterized by predominantly residential uses, by a grid pattern of streets with sidewalks and often including alleys. Residential lots are predominantly narrow and often deep, but the neighborhood may contain sections of larger estate lots, and also sections of lots on which appropriately integrated higher density residential uses may be located. The higher density uses are encouraged to be located in centers or near parks and open spaces having sufficient carrying capacity. There is usually a significant range of housing opportunities, including multi-family dwellings. Traditional neighborhoods often have and are encouraged to have a significant proportion of public open space such as parks or greenways, and may contain civic uses as well as appropriately located and integrated neighborhood centers with a mixture of mostly neighborhood-serving land uses such as offices, shops, restaurants and services. Although many existing traditional neighborhoods are fifty to one hundred twenty years old, it is hoped that the Traditional Neighborhood Form will be revitalized under the new Comprehensive Plan. Revitalization and reinforcement of the Traditional Neighborhood Form will require particular emphasis on (a) preservation and renovation of existing buildings in stable neighborhoods (if the building design is consistent with the predominant building design in those neighborhoods), (b) the preservation of the existing grid pattern of streets and alleys, (c) preservation of public open spaces.

This proposal is preserving the character of the site and contributing to the overall character of the neighborhood by locating this use in an existing structure that is served by a grid pattern of streets and sidewalks, utilizing street parking and bringing a new use into a vacant structure. The site will be increasing the diversity of uses within a mixed-use area and is located on a TARC route. The proposed use is neighborhood serving and is easily accessible from nearby residences. The site is also located near parks and other services.

#### STANDARD OF REVIEW AND STAFF ANALYSIS FOR DDDP

a. The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;

STAFF: LOJIC has not identified any natural resources on site and the applicant will be making no changes to the site to affect tree canopy, soils or any other natural resource.

Published Date: October 16, 2017 Page 2 of 13 17ZONE1052

- b. The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community:
  - STAFF: Provisions for safe and efficient vehicular and pedestrian transportation within and around the development and the community have been provided through the existing street network and sidewalks.
- c. <u>The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed</u> development;
  - STAFF: This development does not require open space, as it does not meet the threshold for open space or outdoor amenity requirements.
- d. The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;
  - STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provisions of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.
- e. <u>The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping)</u> and land use or uses with the existing and projected future development of the area;
  - STAFF: The overall site design and land uses are compatible with the existing and future development of the area, as the character of the existing structure will remain relatively the same.
- f. Conformance of the development plan with the Comprehensive Plan and Land Development Code.

  Revised plan certain development plans shall be evaluated for conformance with the non-residential and mixed-use intent of the form districts and comprehensive plan.
  - STAFF: This development conforms to the Comprehensive Plan and Land Development Code due to the site's existing conditions and the proposed site improvements.

#### NOTIFICATION

Date	Purpose of Notice	Recipients
11/16/17	Hearing before LD&T	1 <sup>st</sup> and 2 <sup>nd</sup> tier adjoining property owners Speakers at Planning Commission public hearing Subscribers of Council District 9 Notification of Development Proposals

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
1	Community Form/Land Use Guideline 1: Community Form	B.2: The proposal preserves the existing grid pattern of streets, sidewalks and alleys.	✓	The proposal does not affect the existing street pattern.
2	Community Form/Land Use Guideline 1: Community Form	B.2: The proposal introduces an appropriately-located neighborhood center including a mix of neighborhood-serving uses such as offices, shops and restaurants.	NA	The proposal is not a neighborhood center.
3	Community Form/Land Use Guideline 1: Community Form	B.2: The proposal preserves public open spaces, and if the proposal is a higher density use, is located in close proximity to such open space, a center or other public areas.	<b>√</b>	This proposal includes no new construction and is located near three local parks, including the Beargrass Creek Greenway.
4	Community Form/Land Use Guideline 1: Community Form	B.2: The proposal preserves and renovates existing buildings if the building design of these structures is consistent with the predominate neighborhood building design.	✓	The proposal is for the preservation and reuse of an existing building for non-residential purposes.
5	Community Form/Land Use Guideline 2: Centers	A.1/7: The proposal, which will create a new center, is located in the Traditional Neighborhood Form District, and includes new construction or the reuse of existing buildings to provide commercial, office and/or residential use.	<b>✓</b>	The proposal will not create a new center but it involves the repurposing of an existing building.
6	Community Form/Land Use Guideline 2: Centers	A.3: The proposed retail commercial development is located in an area that has a sufficient population to support it.	✓	The proposal is located in a higher density mixed residential neighborhood.
7	Community Form/Land Use Guideline 2: Centers	A.4: The proposed development is compact and results in an efficient land use pattern and cost-effective infrastructure investment.	<b>√</b>	The proposal is compact and results in an efficient land use pattern. The areas infrastructure is already set up to serve a mix of uses which indicates it will be able to serve an office use as well.
8	Community Form/Land Use Guideline 2: Centers	A.5: The proposed center includes a mix of compatible land uses that will reduce trips, support the use of alternative forms of transportation and encourage vitality and sense of place.	<b>√</b>	The proposal is for office use in a mixed-use area which will reduce trips and will support alternate transportation with sidewalks around the site. Transit is located along Payne Street.

Published Date: October 16, 2017 Page 6 of 13 17ZONE1052

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
9	Community Form/Land Use Guideline 2: Centers	A.6: The proposal incorporates residential and office uses above retail and/or includes other mixed-use, multi-story retail buildings.	NA	The proposal is for office use only but is not introducing a new center.
10	Community Form/Land Use Guideline 2: Centers	A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.	NA	The proposal is not a larger development within a center.
11	Community Form/Land Use Guideline 2: Centers	A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.	<b>√</b>	The proposal is located on a corner and utilizes the existing alley for access. The only abutting property is a single family home.
12	Community Form/Land Use Guideline 2: Centers	A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.	<b>√</b>	Utilities for the site are existing.
13	Community Form/Land Use Guideline 2: Centers	A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.	✓	The site has sidewalks and transit located along Payne Street.
14	Community Form/Land Use Guideline 3: Compatibility	A.2: The proposed building materials increase the new development's compatibility.	NA	No new construction is proposed.
15	Community Form/Land Use Guideline 3: Compatibility	A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated.	✓	The proposal will mitigate any negative impacts by providing the required buffering adjacent to the abutting single family residence.
16	Community Form/Land Use Guideline 3: Compatibility	A.5: The proposal mitigates any potential odor or emissions associated with the development.	✓	APCD has no issues with the proposal.
17	Community Form/Land Use Guideline 3: Compatibility	A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.	<b>✓</b>	Traffic impacts appear to be minimal and the area has adequate transportation facilities to serve the use.
18	Community Form/Land Use Guideline 3: Compatibility	A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.	<b>√</b>	Lighting will meet LDC requirements.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
19	Community Form/Land Use Guideline 3: Compatibility	A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.	<b>√</b>	The proposal is a higher intensity use located near a transit corridor. There are more intense uses located to the north and Frankfort Avenue, a major commercial corridor, is two blocks north.
20	Community Form/Land Use Guideline 3: Compatibility	A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.	<b>✓</b>	The proposal is meeting landscaping requirements abutting the residential property to the east. Setbacks are existing.
21	Community Form/Land Use Guideline 3: Compatibility	A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments.	<b>√</b>	The proposal is meeting landscaping requirements abutting the residential property to the east. Setbacks are existing.
22	Community Form/Land Use Guideline 3: Compatibility	A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.	<b>√</b>	The building is existing with no new construction proposed.
23	Community Form/Land Use Guideline 3: Compatibility	A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.	✓	There is no parking or loading adjacent to residential, as all parking is located in the back of the development off the alley.
24	Community Form/Land Use Guideline 3: Compatibility	A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.	✓	Street parking will be utilized to meet parking requirements and all parking is located in the back adjacent to the alley and does not require buffering.
25	Community Form/Land Use Guideline 3: Compatibility	A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.	NA	A parking garage is not proposed.
26	Community Form/Land Use Guideline 3: Compatibility	A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.	✓	Any new signage will be compliant with the Land Development Code.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
27	Community Form/Land Use Guideline 4: Open Space	A.2/3/7: The proposal provides open space that helps meet the needs of the community as a component of the development and provides for the continued maintenance of that open space.	<b>√</b>	The provision of open space for this proposal is not required by the LDC.
28	Community Form/Land Use Guideline 4: Open Space	A.4: Open space design is consistent with the pattern of development in the Traditional Neighborhood Form District.	NA	Open space is not required.
29	Community Form/Land Use Guideline 4: Open Space	A.5: The proposal integrates natural features into the pattern of development.	✓	As there is no new construction, any natural features of the site are being left intact.
30	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.1: The proposal respects the natural features of the site through sensitive site design, avoids substantial changes to the topography and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	<b>✓</b>	As there is no new construction, any natural features of the site are being left intact.
31	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.2/4: The proposal includes the preservation, use or adaptive reuse of buildings, sites, districts and landscapes that are recognized as having historical or architectural value, and, if located within the impact area of these resources, is compatible in height, bulk, scale, architecture and placement.	<b>√</b>	The proposal is for the adaptive reuse of an existing structure.
32	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.6: Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes with the potential for severe erosion.	✓	Soils are not an issue for the site.
33	Marketplace Guideline 6: Economic Growth and Sustainability	A.2: Ensure adequate access between employment centers and population centers.	✓	This site is within an established neighborhood with existing vehicular, pedestrian and transit infrastructure.
34	Marketplace Guideline 6: Economic Growth and Sustainability	A.3: Encourage redevelopment, reinvestment and rehabilitation in the downtown where it is consistent with the form district pattern.	NA	The proposal is not located in a downtown.
35	Marketplace Guideline 6: Economic Growth and Sustainability	A.4: Encourage industries to locate in industrial subdivisions or adjacent to existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
36	Marketplace Guideline 6: Economic Growth and Sustainability	A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.	NA	This proposal is not a retail commercial development and does not anticipate generating large amounts of traffic.
37	Marketplace Guideline 6: Economic Growth and Sustainability	A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.	NA	The proposal is not for industrial.
38	Mobility/Transportation Guideline 7: Circulation	A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.	<b>✓</b>	This proposal does not constitute any roadway improvements.
39	Mobility/Transportation Guideline 7: Circulation	A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.	<b>√</b>	The proposal promotes all forms of transportation by maintaining sidewalks and transit connectivity.
40	Mobility/Transportation Guideline 7: Circulation	A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads.	<b>✓</b>	This proposal does not constitute additional transportation facilities, as it is a small site.
41	Mobility/Transportation Guideline 7: Circulation	A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.	✓	Right-of-way is existing that includes adequate facilities for pedestrians, bicyclists and drivers.
42	Mobility/Transportation Guideline 7: Circulation	A.10: The proposal includes adequate parking spaces to support the use.	✓	Parking is compliant with the LDC, as both street parking and on-site parking will be used.
43	Mobility/Transportation Guideline 7: Circulation	A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.	<b>√</b>	Cross access to adjacent site is not appropriate for this proposal.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
44	Mobility/Transportation Guideline 8: Transportation Facility Design	A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.	<b>√</b>	A stub street is not necessary because the site is constrained by roadways.
45	Mobility/Transportation Guideline 8: Transportation Facility Design	A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.	<b>√</b>	Access to the development is through public rights of way.
46	Mobility/Transportation Guideline 8: Transportation Facility Design	A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.	✓	The existing roadways provide the appropriate linkages to other development.
47	Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit	A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.	<b>✓</b>	Sidewalks are provided for transit users and pedestrians. Existing sidewalks are located along the street frontage.
48	Livability/Environment Guideline 10: Flooding and Stormwater	The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blueline streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices.	✓	MSD has given preliminary approvals and has no issues with the proposal.
49	Livability/Environment Guideline 12: Air Quality	The proposal has been reviewed by APCD and found to not have a negative impact on air quality.	✓	APCD has no issues with the proposal.
50	Livability/Environment Guideline 13: Landscape Character	A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.	<b>√</b>	Natural corridors are not evident in or around the proposal.
51	Community Facilities Guideline 14: Infrastructure	A.2: The proposal is located in an area served by existing utilities or planned for utilities.	✓	Existing utilities serve the site.
52	Community Facilities Guideline 14: Infrastructure	A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.	✓	Water is available to the site.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
53	Community Facilities Guideline 14: Infrastructure	A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams.	<b>√</b>	The health department has no issues with the proposal.

#### 3. Existing Conditions of Approval (B-13943-10) – To be abandoned

- 1. The site shall be developed in strict compliance with the approved development plan (including all notes thereon). No further development shall occur on the site without prior review and approval by the Board.
- 2. The Conditional Use Permit shall be "exercised" as described in KRS 100.237 within one year of the Board's vote on this case. If the Conditional Use Permit is not so exercised, the site shall not be used for a rehabilitation home without further review and approval by the Board.
- 3. The maximum number of clients housed in the facility shall be eighteen (18).
- 4. The maximum number of employees on site at any given time shall be 6.
- 5. No registered sex offenders are allowed on the site as workers, residents or visitors.

#### 4. Proposed Binding Elements

- The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
- 2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
- 3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
- 4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
  - a. The development plan must receive full construction approval from Develop Louisville and the Metropolitan Sewer District.
  - b. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
  - c. A minor plat or legal instrument shall be recorded consolidating the property into one lot. A copy of the recorded instrument shall be submitted to the Division of Planning and Design Services; transmittal of the approved plans to the office responsible for permit issuance will occur only after receipt of said instrument.
  - d. Construction plans, bond and permit for work in the Payne Street right-of-way and alley are required.
- 5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
- 6. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system audible beyond the property line.

7.	The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.
