

Board of Zoning Adjustment

Staff Report

January 9, 2018

Case No:	17CUP1005
Project Name:	Colonial Gardens
Location:	818 West Kenwood Drive
Owner(s):	Underhill Associates
Applicant:	Underhill Associates
Jurisdiction:	Louisville Metro
Council District:	21 – Vitalis Lanshima
Case Manager:	Jon Crumbie, Planning & Design Coordinator

REQUEST(S)

- Conditional Use Permit to allow outdoor alcohol sales and consumption in a C-1 zoning district.
- Variances to allow proposed structure to encroach into the required West Kenwood Drive Front yard and New Cut Road street side yard.

Location	Requirement	Request	Variance
W. Kenwood Dr.	13' – 1"	10'	3' – 1"
New Cut Road	12' – 7"	14' – 9"	2' – 2"

- Landscape waivers to reduce the required landscape buffer area and Interior Landscape Area

Location	Requirement	Request	Waiver
East property Line	15'	6'	9'
ILA – Entire Site	7.5%	6.1%	1.4%

- Landscape waiver to allow a dumpster in the required vehicular use area along West Kenwood Drive and reduce vehicle use area along portions of West Kenwood Drive and New Cut Road

Location	Requirement	Request	Waiver
W. Kenwood Dr. (Dumpster)	10'	0	10'
W. Kenwood Drive	10'	0	10'
New Cut Road	10'	0	10'

CASE SUMMARY/BACKGROUND

The Colonial Gardens Project consists of developing the site for three or four new restaurants gathered around a common courtyard space. Parking is located along the exterior of the site and across West

Kenwood Drive. A total of 113 parking spaces will be provided. The historic Colonial Gardens building would anchor the development on the corner of West Kenwood Drive and New Cut Road. The treatment for the historic Colonial Gardens is to return it to its original appearance. The Colonial Gardens Landmarks designation includes only the contiguous building. The seating and square footage for each structure are as follows:

<u>Building</u>	<u>Square footage</u>	<u>Number of people</u>
#1	1,000	79
#2	600	53
#3	470	31
#4	470	31

STAFF FINDING / RECOMMENDATION

There are eight requirements for the Conditional Use Permit for outdoor alcohol sales and consumption. Items B., C., and D. do not apply. The applicant will need to obtain the proper liquor licenses. Based upon the information in the staff report and the testimony and evidence provided at the public hearing, the Board of Zoning Adjustment must determine if the proposal meets the standards established in the LDC for a Conditional Use Permit.

RELATED CASES

17Park1000	A request for a joint parking/off-site parking agreement.
17COA1007	COA to allow the renovation of the historic Colonial Gardens was approved by the Landmarks Commission on February 14, 2017.
12455-IL	<p>A request for a proposed demolition of Colonial Gardens which was denied by the Individual Landmarks AR in 2009.</p> <p>In October of 2015 three additions on the east elevation were demolished by emergency order so that the historic portion of Colonial Gardens could be stabilized.</p>

TECHNICAL REVIEW

There are no outstanding technical review items.

INTERESTED PARTY COMMENTS

A neighborhood meeting was held on November 27, 2017. Twenty two people attended the meeting.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR CONDITIONAL USE PERMIT

1. Is the proposal consistent with applicable policies of the Comprehensive Plan?

STAFF: The proposal meets all applicable policies of the Comprehensive Plan. Additional signage and lighting will be code compliant. A landscape plan for the entire development will be approved and implemented.

2. Is the proposal compatible with surrounding land uses and the general character of the area including factors such as height, bulk, scale, intensity, traffic, noise, odor, drainage, dust, lighting and appearance?

STAFF: The proposal is compatible with surrounding development with respect to scale, traffic, noise, odor, drainage, dust, lighting, and will be an improvement in appearance.

3. Are necessary on-site and off-site public facilities such as transportation, sanitation, water, sewer, drainage, emergency services, education and recreation adequate to serve the proposed use?

STAFF: The subject property is served by existing public utilities and facilities. The proposal will not create substantial additional requirements for the site. Transportation Planning and MSD have reviewed and approved the preliminary site plan.

4. Does the proposal comply with the following specific standards required to obtain the conditional use permit requested?

Outdoor alcohol sales and consumption and/or indoor live entertainment for a restaurant may be permitted in the C-1 zoning district upon the granting of conditional use permit and compliance with the listed requirements. **Items B., C., and D. do not apply.**

A. All outdoor areas for the sale and consumption of alcohol must have designated boundaries.

B. Outdoor dining areas within the public right-of-way must receive approval from the agency responsible for transportation engineering and shall be designed in accordance with agency standards.

C. Outdoor dining areas adjacent to the public right-of-way shall contain a physical barrier that is at least three feet in height. The barrier should be designed to permit existing legal access from building to the adjacent public right-of-way.

D. Outdoor dining areas that include the sale and consumption of alcohol within 50 feet of a residentially zoned or used property shall provide a six foot continuous screen as part of the designated boundary for the areas of the outdoor area within 50 feet of residentially used or zoned property. The continuous screen shall be in conformance with the Chapter 10, Part 4 (Implementation Standards).

E. This conditional use permit shall be limited to restaurant uses in the C-1 that hold the following types of ABC licenses: 1. Restaurant liquor and wine license by the drink for 100 plus seats 2. Restaurant wine license by the drink for restaurants with seating for 100 and receives at least 70 percent gross receipts from food sales

F. The use of outdoor dining areas for the sale and consumption of alcohol shall cease by 1 A.M.

G. The entertainment activity shall be in compliance with the Metro Noise Ordinance (LMCO Chapter 99).

H. The Board may require additional and more restrictive requirements than those listed above based on the conditions of the specific location and the characteristics of the specific restaurant.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE
West Kenwood Drive and New Cut Road**

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The requested variance will not adversely affect public health, safety or welfare since the new structures will serve as a complement to the existing historical corner structure.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The requested variance will not alter the essential character of the general vicinity since the new structures will match the existing historical corner structure.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public since the sight triangle will not be disturbed.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations since encroachments will not be noticeable from the street or sidewalk.

ADDITIONAL CONSIDERATIONS:

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The existing historical structure is a special circumstance since it will remain and the other development on site is trying to be compatible and build around the historical structure. Also the site is located on a corner within the Neighborhood Form District.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the regulation would create an unnecessary hardship on the applicant since the outdoor areas may have to be reduced to allow less people and or parking.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The applicant is not responsible for the location of the historic structure on site, but is trying to develop the rest of the site to be compatible with the existing development.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER
East Property Line**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the required tree plantings and screen will be provided.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: Guideline 3, Policy 9 of Cornerstone 2020 calls for protection of the character of residential areas, roadway corridors and public spaces from visual intrusions and mitigation when appropriate. Guideline 3, Policies 21 and 22 call for appropriate transitions between uses that are substantially different in scale and intensity or density, and mitigation of the impact caused when incompatible developments occur adjacent to one another through the use of landscaped buffer yards, vegetative berms and setback requirements to address issues such as outdoor lighting, lights from automobiles, illuminated signs, loud noise, odors, smoke, automobile exhaust or other noxious smells, dust and dirt, litter, junk, outdoor storage, and visual nuisances. Guideline 3, Policy 24 states that parking, loading and delivery areas located adjacent to residential areas should be designed to minimize impacts from noise, lights and other potential impacts, and that parking and circulation areas adjacent to streets should be screened or buffered. Guideline 13, Policy 4 calls for ensuring appropriate landscape design standards for different land uses within urbanized, suburban, and rural areas. Guideline 13, Policy 6 calls for screening and buffering to mitigate adjacent incompatible uses. The intent of landscape buffer areas is to create suitable transitions where varying forms of development adjoin, to minimize the negative impacts resulting from adjoining incompatible land uses, to decrease storm water runoff volumes and velocities associated with impervious surfaces, and to filter airborne and waterborne pollutants.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since the proposal will increase the amount of green space and landscaping that currently exists on site.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of reasonable use of the land because the parking area would need to be revised and spaces may be lost to meet the drive aisle requirement of 24 feet.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR LANDSCAPE WAIVER to
allow a reduction of ILA from 7.5% to 6.1%**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the required tree plantings and screen will be provided.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: Guideline 13, Policy 5 calls for standards to ensure the creation and/or preservation of tree canopy as a valuable community resource. The purpose of interior landscape areas is to break up large impervious areas and allow for a greater distribution of tree canopy coverage.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since the proposal will increase the amount of green space and landscaping that currently exists on site.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of reasonable use of the land because the parking area would need to be revised and spaces may be lost to meet the drive aisle requirement of 24 feet.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER
VUA along West Kenwood Drive and New Cut Road**

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners since the required tree plantings and screen will be provided.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: The waiver will not violate Guideline 3, Compatibility, of Cornerstone 2020, which calls for the protection of roadway corridors and public areas from visual intrusions, for mitigation of parking areas so as not to negatively impact nearby residents and pedestrians, and for screening and buffering of parking areas adjacent to streets. The waiver will not violate Guideline 13, Landscape Character, which calls for the protection of parkways through standards for buffers, landscape treatment, lighting and signs. The purpose of vehicle use area landscape buffer areas is to improve the appearance of vehicular use areas and property abutting public rights-of way.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant since the proposal will increase the amount of green space and landscaping that currently exists on site.

- (d) Either:
(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR
(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of reasonable use of the land because the parking area would need to be revised and spaces may be lost to meet the drive aisle requirement of 24 feet.

Neighborhood: Non-Residential

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
1	Community Form/Land Use Guideline 1: Community Form	B.3: The proposal is a neighborhood center with a mixture of uses such as offices, retail shops, restaurants and services at a scale that is appropriate for nearby neighborhoods.		
2	Community Form/Land Use Guideline 1: Community Form	B.3: If the proposal is high intensity, it is located on a major or minor arterial or an area with limited impact on low to moderate intensity residential uses.		
3	Community Form/Land Use Guideline 2: Centers	A.1/7: The proposal, which will create a new center, is located in the Neighborhood Form District, and includes new construction or the reuse of existing buildings to provide commercial, office and/or residential use.	✓	The proposal will include construction of two new structures and reuse of an existing structure.
4	Community Form/Land Use Guideline 2: Centers	A.3: The proposed retail commercial development is located in an area that has a sufficient population to support it.		
5	Community Form/Land Use Guideline 2: Centers	A.4: The proposed development is compact and results in an efficient land use pattern and cost-effective infrastructure investment.		
6	Community Form/Land Use Guideline 2: Centers	A.5: The proposed center includes a mix of compatible land uses that will reduce trips, support the use of alternative forms of transportation and encourage vitality and sense of place.		
7	Community Form/Land Use Guideline 2: Centers	A.6: The proposal incorporates residential and office uses above retail and/or includes other mixed-use, multi-story retail buildings.		
8	Community Form/Land Use Guideline 2: Centers	A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.		

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
9	Community Form/Land Use Guideline 2: Centers	A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.	✓	The development will have not share entrances, but will have an agreement with the property to the north to use 31 additional spaces.
10	Community Form/Land Use Guideline 2: Centers	A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.		
11	Community Form/Land Use Guideline 2: Centers	A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.	✓	Bike parking will be provided inside and outside.
12	Community Form/Land Use Guideline 3: Compatibility	A.2: The proposed building materials increase the new development's compatibility.	✓	The proposal has received a Certificate of Appropriateness from the Landmarks Commission.
13	Community Form/Land Use Guideline 3: Compatibility	A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated.		
14	Community Form/Land Use Guideline 3: Compatibility	A.5: The proposal mitigates any potential odor or emissions associated with the development.	✓	APCD has reviewed and approved the proposal.
15	Community Form/Land Use Guideline 3: Compatibility	A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.	✓	Transportation Planning has reviewed and approved the proposal.
16	Community Form/Land Use Guideline 3: Compatibility	A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.	✓	Lighting will be code compliant.
17	Community Form/Land Use Guideline 3: Compatibility	A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.		

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
18	Community Form/Land Use Guideline 3: Compatibility	A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.		
19	Community Form/Land Use Guideline 3: Compatibility	A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments.		
20	Community Form/Land Use Guideline 3: Compatibility	A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.		
21	Community Form/Land Use Guideline 3: Compatibility	A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.	✓	Transportation Planning has reviewed and approved the proposal.
22	Community Form/Land Use Guideline 3: Compatibility	A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.		
23	Community Form/Land Use Guideline 3: Compatibility	A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.		
24	Community Form/Land Use Guideline 3: Compatibility	A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.	+/-	Signage on the buildings is not shown, but a monument style sign is located at each entrance. All signs should be code compliant.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
25	Community Form/Land Use Guideline 4: Open Space	A.2/3/7: The proposal provides open space that helps meet the needs of the community as a component of the development and provides for the continued maintenance of that open space.		
26	Community Form/Land Use Guideline 4: Open Space	A.4: Open space design is consistent with the pattern of development in the Neighborhood Form District.		
27	Community Form/Land Use Guideline 4: Open Space	A.5: The proposal integrates natural features into the pattern of development.		
28	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.1: The proposal respects the natural features of the site through sensitive site design, avoids substantial changes to the topography and minimizes property damage and environmental degradation resulting from disturbance of natural systems.		
29	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.2/4: The proposal includes the preservation, use or adaptive reuse of buildings, sites, districts and landscapes that are recognized as having historical or architectural value, and, if located within the impact area of these resources, is compatible in height, bulk, scale, architecture and placement.		
30	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.6: Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes with the potential for severe erosion.		
31	Marketplace Guideline 6: Economic Growth and Sustainability	A.3: Encourage redevelopment, reinvestment and rehabilitation in the downtown where it is consistent with the form district pattern.		
32	Marketplace Guideline 6: Economic Growth and Sustainability	A.4: Encourage industries to locate in industrial subdivisions or adjacent to existing industry to take advantage of special infrastructure needs.		

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
33	Marketplace Guideline 6: Economic Growth and Sustainability	A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.		
34	Marketplace Guideline 6: Economic Growth and Sustainability	A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.		
35	Mobility/Transportation Guideline 7: Circulation	A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.		
36	Mobility/Transportation Guideline 7: Circulation	A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.		
37	Mobility/Transportation Guideline 7: Circulation	A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads.		
38	Mobility/Transportation Guideline 7: Circulation	A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.	✓	Transportation Planning has reviewed and approved the proposal.
39	Mobility/Transportation Guideline 7: Circulation	A.10: The proposal includes adequate parking spaces to support the use.	✓	Transportation Planning has reviewed and approved the proposal.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
40	Mobility/Transportation Guideline 7: Circulation	A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.		
41	Mobility/Transportation Guideline 8: Transportation Facility Design	A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.		
42	Mobility/Transportation Guideline 8: Transportation Facility Design	A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.		
43	Mobility/Transportation Guideline 8: Transportation Facility Design	A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.		
44	Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit	A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.		
45	Livability/Environment Guideline 10: Flooding and Stormwater	The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blueline streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices.	✓	MSD has reviewed and approved the proposal.
46	Livability/Environment Guideline 12: Air Quality	The proposal has been reviewed by APCD and found to not have a negative impact on air quality.	✓	APCD has reviewed and approved the proposal.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
47	Livability/Environment Guideline 13: Landscape Character	A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.		
48	Community Facilities Guideline 14: Infrastructure	A.2: The proposal is located in an area served by existing utilities or planned for utilities.	✓	There are existing utilities on site.
49	Community Facilities Guideline 14: Infrastructure	A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.	✓	The area is served by the Louisville Fire District #3.
50	Community Facilities Guideline 14: Infrastructure	A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams.	✓	Adequate sewage treatment is provided.

4. **Conditions of Approval**

1. The site shall be developed in strict compliance with the approved development plan (including all notes thereon). No further development shall occur on the site without prior review and approval by the Board.
2. The Conditional Use Permit shall be "exercised" as described in KRS 100.237 within two years of the Board's vote on this case. If the Conditional Use Permit is not so exercised, the site shall not be used for outdoor alcohol sales and consumption without further review and approval by the Board.
