Jeff-

I made an error on my previous email (at 10:36 AM), and attached the old quote for the island at Goldsmith. The one hackberry that only needed to be deadwooded no longer has the limb that needs the attention. Sorry not to remember right away but I look at a lot of trees.

Please base the costs off the attached estimates (I promise these are the correct ones!). The total cost of all work on the three sites is \$8,909.00.

Subject: RE: SR #4898841-ROSS BLVD ISLAND

Total of \$9434.00.

Got it.

Thanks.

Jeff

Subject: RE: SR #4898841-ROSS BLVD ISLAND

Jeff-

For the Island at Goldsmith and Bon Air Lane—there are a total of <a href="three">three</a> trees that need to be addressed: (1) oak to be deadwood (sits in island along Goldsmith), the second (2) is a hackberry that needs to be deadwooded, and the third (3) is a different hackberry that needs to be remove (this is the hackberry that has been reported to CD26 office several times and it literally falling apart). The total for all three tree to be worked on is \$3,032.00 (located below the box on the estimate). If council decides to only address some of the items, the individual price is listed in the box of the estimate next to the prescribed work. On this estimate, the <a href="greatest">greatest</a> need is #3 but during our previous discussions, I pointed out the need for additional work on other trees of the island and included those costs in the estimate.

For Ross Blvd, The Division has received complaints and we brought them to council attention due to the Division having a lack of funding for tree removals. The island contains 6 ash trees that are dead or in decline due to infestation from the Emerald Ash borer. The total cost for the removals is \$2544.00.

For the Island at Goldsmith and Bon Air Lane—there are a total of <u>three</u> trees that need to be addressed: (1) oak to be deadwood (sits in island along Goldsmith), the second (2) is a hackberry that needs to be deadwooded, and the third (3) is a different hackberry that needs to be remove (this is the hackberry that has been reported to CD26 office several times and it literally falling apart). The total for all three tree to be worked on is \$3,032.00 (located below the box on the estimate). If council decides to only address some of the items, the individual price is listed in the box of the estimate next to the prescribed work. On this estimate, the <u>greatest</u> need is #3 but during our previous discussions, I pointed out the need for additional work on other trees of the island and included those costs in the estimate.

For Ross Blvd, The Division has received complaints and we brought them to council attention due to the Division having a lack of funding for tree removals. The island contains 6 ash trees that are dead or in decline due to infestation from the Emerald Ash borer. The total cost for the removals is \$2544.00.

Furman Blvd: Correct, the final cost is \$3,858.00.

Please let me know what other questions you have. I am in my office if you need to call me (574-4030). Thank you, Erin
