Standard Binding Elements (applicable to all cases of this type)

1. The development shall be in accordance with the approved district development plan and binding elements unless amended pursuant to the Land Development Code. Modifications to the binding element(s) shall be submitted to the Planning Commission or its designee for review and approval; any modifications not so referred shall not be valid.
2. The gross floor area of the structure shall not exceed 321,138 square feet of office/warehouse space.
3. Signs shall be in accordance with Chapter 8 of the LDC.
4. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
5. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
6. Prior to issuance of a permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit):
 - a. The development plan must receive full construction approval from Louisville Metro Department of Inspections, Permits and Licenses, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. The property owner/developer shall obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
7. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
8. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors, and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.
9. The materials and design of proposed structures shall be substantially the same as depicted in the rendering as presented at the July 17, 2009 Public Hearing.
10. At the time a building permit is requested, the applicant shall submit a certification statement to the permit issuing agency, from an engineer, or other qualified professional stating that the lighting of the proposed development is in compliance with Chapter 4 Part 1.3 of the land development code and shall be maintained there after. No building permits shall be issued unless such certification statement is submitted. Lighting shall be maintained on the property in accordance with Chapter 4 Part 1.3 of the land development code. Lighting shall be maintained on the property in accordance with Chapter 4 Part 1.3 of the land development code.
11. The address number shall be displayed on a structure prior to requesting a certificate of occupancy for that structure.

All binding elements and/or conditions of approval stated in this report are accepted in total without exception by the entity requesting approval of this (these) development item(s).
