D. Building Facades (applicable to new structures or when replacing 50% or more of an existing building façade)

- i. Buildings shall have articulated facades with animating features (i.e., columns, piers, pilasters, or similar elements) every 20 to 40 feet to create an architectural rhythm. **Rear facades shall not be required to comply with this part, unless located within the form district transition zone or abutting a residential use.**
- ii. At least 70% of the building façade facing the public right-of-way shall be located between the minimum and maximum setback/build-to-line. **This shall only apply to new construction/enlargement of the building footprint.**
- iii. A minimum of fifty percent (50%) of the street level facade shall be transparent.
- iv. Blank, unarticulated walls shall not extend for distances greater than twenty-five feet (25').

Note: Rear facades shall not be required to comply with this part, unless located within the form district transition zone or abutting a residential use.

- v. Buildings on corner lots shall use windows, doors or architectural detail to address façade design on both street frontages.
- vi. Multi-family structures shall not have attached front facing garages. Garages shall be accessed from alleys or, in the case of a development consisting of multiple units, from an internal drive accessible from the rear
