Short summary of the meeting detailing items of concern and proposed resolutions:

The meeting was in the home, Saturday at the agreed time.

We told them that the meeting was part of a process Metro Planning and Design Services for Building Permits.

We were talking about what we were doing, we showed them the plan made so that they had broader idea.

We talk about what are the processes that must be done, I mention them doing the permissions and the steps required.

I gave them my phone number if in the future they had any questions, or they just want to know something else.

We explained to the neighbors that we are doing a accessory apartments, we went down together and we showed them the basement so they could see and have a broader idea.

they liked what they saw; in one of them I asked about the procedures and permits and we told them that each one was important. and that we also did with electrical and plumbing.

that all these are important so that it remains legal and adjusted to city codes.

If they had more questions or doubts in the future they could visit me or call me.
