General Waiver Justification:

In order to justify approval of any waiver, the Planning Commission or Board of Zoning Adjustment considers four criteria. Please answer **all** of the following questions. Use additional sheets if needed. **A response of yes, no, or N/A is not acceptable.**

1. Will the waiver adversely affect adjacent property owners?

Granting of the waiver will not adversely affect adjacent property owners since this is an existing condition that existed prior to the current Land Development Code.

2. Will the waiver violate the Comprehensive Plan?

Granting of the waiver will not violate the comprehensive plan since this is an existing condition that existed prior to the current Land Development Code.

3. Is extent of waiver of the regulation the minimum necessary to afford relief to the applicant?

Yes, this is the extent of waiver necessary to afford relief to the applicant. Applicant will provide a compliant plan, in conjunction with the associated waiver.

4. Has either (a) the applicant incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect) or would (b) the strict application of the provisions of the regulation deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant?

Strict application of the provisions would deprive the applicant of the reasonable use of the land and would create unnecessary hardship on the applicant.
