STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCES

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The requested variance will not adversely affect the public health, safety or welfare, as it is set back far enough from the intersection to allow for adequate site lines for traffic in all adjacent rights-of-way.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The requested variance will not alter the essential character of the general vicinity, as it replaces a similar older sign in roughly the same position on the subject property.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public, as the location will maximize setback from the nearby intersection and will replace an old sign that is in disrepair.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations, as the sign is of a reasonable size but located on an exceptionally narrow parcel.

ADDITIONAL CONSIDERATIONS:

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The requested variance arises from special circumstances, in that the subject property is extremely narrow and surrounded by rights-of-way on 3 sides.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would not deprive the applicant of the reasonable use of the land.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are not the result of actions of the applicant.

REQUIRED ACTIONS:

- **APPROVE** or **DENY** the **Variance**
