

Dante St. Germain
Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- o Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- o Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- o Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- o Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- o All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- o Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- o Possible environmental issues with equipment repair on site without proper facilities.
- o Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- o This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- o Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- o Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- o Tree debris has become a home for rodents and other pests.

Sincerely,

Mr. & Mrs. Robert Schmidt, Sr.

- Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- Possible environmental issues with equipment repair on site without proper facilities.
- Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- Tree debris has become a home for rodents and other pests.

Sincerely,

Dante St. Germain
Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.

Dante St. Germain
Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- Possible environmental issues with equipment repair on site without proper facilities.
- Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- Tree debris has become a home for rodents and other pests.

Sincerely,

Wanda Caster

- o Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- o This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- o Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- o Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- o Tree debris has become a home for rodents and other pests.

Sincerely,

Robert Buckhame 12301 Wildcat Way

19 ZONE 0023

Dante St. Germain
Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- Possible environmental issues with equipment repair on site without proper facilities.
- Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- Tree debris has become a home for rodents and other pests.

Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- Possible environmental issues with equipment repair on site without proper facilities.
- Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- Tree debris has become a home for rodents and other pests.

Sincerely,

Joanne M. Wheeler
12005 Oak Ridge Pl.

19 ZONE 0023

DESIGN SERVICES

Dante St. Germain
Louisville Planning and Zoning,

Homeowners in the Deer Creek, Landherr Estates and Chenoweth Run subdivisions strongly oppose the rezoning of the three lots at 3109, 3115 and 3119 Chenoweth Run Road from R-4 to C-2 (Case 19-Zone-0023) due to the following reasons:

- o Since 2016, Lopez Tree Service has been violating residential regulations on this property by operating a business in a R4 residential area and has defied all Louisville Metro citations; Louisville Planning and Zoning should not allow this defiant behavior to continue.
- o Lopez Tree Service property has a Chenoweth Run address but is located and visible on Blankenbaker Parkway; trucks, buildings and debris can be seen from the Parkway.
- o Dilapidated fence on Blankenbaker Parkway is inadequate to conceal poor work conditions on the property and is left in the future plan.
- o Property does not meet the planning and zoning standards established on Blankenbaker Parkway by NTS and other past developers for new development.
- o All property South of Chenoweth Run Road is zoned residential and this rezoning does not enhance our neighborhoods as outlined in the Comprehensive Plan 2040.
- o Operating this type of business in a residential area creates an environmental hazard along with noise and traffic problems; Business operates wood chipper and other equipment on the property (excess noise and fuel odors).
- o Possible environmental issues with equipment repair on site without proper facilities.
- o Due to past and current behavior, business cannot be trusted to abide by any new rezoning regulations or waivers in the future.
- o This rezoning may lead to additional commercial linear development on Chenoweth Run Road in the future.
- o Large boom trucks, cranes, stump grinders, wood chippers and wood chip trucks are parked on improper surface daily (gravel and dirt surfaces).
- o Current buildings are in poor condition now; what hope do we have for future buildings to be compliant?
- o Tree debris has become a home for rodents and other pests.

Sincerely,

Paul J. Arnold
