Planning Commission

Staff Report

July 30, 2020

Case No: 20-ZONE-0030

Project Name: Smoketown Hopebox

Location: 534 – 538 E Breckinridge Street
Owner(s): Young Adult Development
Applicant: Young Adult Development

Jurisdiction: Louisville Metro

Council District: 4 – Barbara Sexton Smith

Case Manager: Dante St. Germain, AICP, Planner II

REQUESTS

- Change in zoning from UN Urban Neighborhood to C-1 Commercial
- **Variance** from 5.5.1.A.2 to allow a non-residential structure on a corner lot to be more than 5' from the property line (20-VARIANCE-0038)
- Waiver from 5.5.1.A.1.b to allow a non-residential structure on a corner lot to have a principal entrance that faces only one abutting street (20-WAIVER-0051)
- Revised Detailed District Development Plan with Binding Elements

CASE SUMMARY/BACKGROUND

The subject site is located at the intersection of E Breckinridge Street and S Hancock Street, in the Smoketown neighborhood, and is currently partially developed with existing buildings. The applicant proposes to rezone the site to utilize it as laundromat and business incubator.

The neighborhood is mixed-use with a variety of uses nearby. A portion of the site is zoned UN and a portion is zoned C-1. The UN-zoned portion is proposed to be rezoned to C-1 to unify the site zoning and permit the desired uses. Single-family residential, commercial, institutional and industrial uses are located nearby.

A portion of the site was rezoned in 1990, from OR-2 to C-1 under docket 9-4-90. The remainder of the site was rezoned from OR-2 to UN under an areawide rezoning, docket 9-81-02.

The site is within the study area for the Smoketown/Shelby Park Neighborhood Plan. The site is identified as a "node" for neighborhood-serving retail in an otherwise residential area.

The rezoning request includes only Tract 2 as shown on the development plan. Tract 1 is the subject of a requested Conditional Use Permit for transitional housing, which will be considered separately by the Board of Zoning Adjustment. This request is under case number 20-CUP-0090.

STAFF FINDING

Staff finds that the rezoning proposal meets the guidelines of the Comprehensive Plan. The proposed development plan meets the requirements of the Land Development Code with the exception of the requested variance and waiver. Staff finds that the requested variance and waiver are adequately justified and meet the standard of review.

TECHNICAL REVIEW

Plan 2040

Land Development Code (Louisville Metro)

Smoketown/Shelby Park Neighborhood Plan

MSD and Transportation Planning have provided preliminary approval of the proposal. The site is identified as a "node" in the Smoketown/Shelby Park Neighborhood Plan, encouraging neighborhood-serving retail business.

INTERESTED PARTY COMMENTS

Staff received one phone call in opposition to the request. The caller opposes the rezoning request and would prefer that the portion of the site currently zoned UN remain UN and be developed as a new single-family residence.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

- 1. The proposed form district/rezoning change complies with the applicable guidelines and policies Plan 2040: **OR**
- 2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; **OR**
- There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Plan 2040 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

The site is located in the Traditional Neighborhood Form District

This form is characterized by predominantly residential uses, by a grid pattern of streets with sidewalks and often including alleys. Residential lots are predominantly narrow and often deep, but the neighborhood may contain sections of larger estate lots, and also sections of lots on which appropriately integrated higher density residential uses may be located. The higher density uses are encouraged to be located in centers or near parks and open spaces having sufficient carrying capacity. There is usually a significant range of housing opportunities, including multi-family dwellings. Traditional neighborhoods often have and are encouraged to have a significant proportion of public open space such as parks or greenways, and may contain civic uses as well as appropriately located and integrated neighborhood centers with a mixture of mostly neighborhood-serving land uses such as offices, shops, restaurants and services. Although many existing traditional neighborhoods are 50 to 120 years old, the Traditional Neighborhood Form may be used when establishing new developments and redevelopments. Revitalization and reinforcement of the Traditional Neighborhood Form will require particular emphasis on (a) preservation and renovation of existing buildings in stable neighborhoods (if the building design is consistent with the predominant building design in those neighborhoods), (b) in the case of new developments or redevelopments using traditional building scales and site layouts, (c) the preservation of the existing or establishing a new grid pattern of streets and alleys, and (d) preservation of or creation of new public open spaces.

Published Date: July 22, 2020 Page 2 of 18 Case 20-ZONE-0030

Following is staff's analysis of the proposed rezoning against the Goals, Objectives and Policies of Plan 2040.

The proposed C-1 zoning district is already present on a portion of the site. Rezoning the remainder of the site would unify the site's zoning and provide for a neighborhood-serving "node" as recommended by the Smoketown/Shelby Park Neighborhood Plan. The proposal would permit additional neighborhood-serving uses in the future as well.

The proposed zoning district is generally in compliance with the plan elements of Plan 2040, and with the CHASE principles in the Comprehensive Plan.

All other agency comments should be addressed to demonstrate compliance with the remaining Goals, Objectives and Policies of Plan 2040.

A checklist is attached to the end of this staff report with a more detailed analysis. The Louisville Metro Planning Commission is charged with making a recommendation to the Louisville Metro Council regarding the appropriateness of this zoning map amendment. The Louisville Metro Council has zoning authority over the property in question.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE FROM 5.5.1.A.2

- (a) The requested variance will not adversely affect the public health, safety or welfare.
 - STAFF: The requested variance will not adversely affect public health safety or welfare as exceeding the required maximum yard will not affect sight lines at the corner.
- (b) The requested variance will not alter the essential character of the general vicinity.
 - STAFF: The requested variance will not alter the essential character of the general vicinity as the proposed setback is similar to the setback of the house on the abutting property to the west.
- (c) The requested variance will not cause a hazard or nuisance to the public.
 - STAFF: The requested variance will not cause a hazard or nuisance to the public as the increased setback is not hazardous and will not constitute a nuisance.
- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.
 - STAFF: The requested variance will not allow an unreasonable circumvention of zoning regulations as the setback is similar to the setback of the house on the abutting property to the west, and the property will be a single corner lot only when the lots are consolidated.

ADDITIONAL CONSIDERATIONS:

1. <u>The requested variance arises from special circumstances which do not generally apply to land</u> in the general vicinity or the same zone.

STAFF: The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone because the site is currently three separate lots and the lot currently on the corner does comply with the 5' setback rule. It is only when the three lots are consolidated that the building on the other portions of the site will be required to comply with the 5' setback rule.

Published Date: July 22, 2020 Page 3 of 18 Case 20-ZONE-0030

- 2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.
 - STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant by requiring the applicant to pull the building forward on the lot and diminishing the utility of the front courtyard.
- 3. The circumstances not are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances not are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought as no construction has yet taken place and the variance is being sought at this time.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER OF SECTION 5.5.1.A.1.b

- (a) The waiver will not adversely affect adjacent property owners; and
 - STAFF: The waiver will not adversely affect adjacent property owners as an entrance is being provided which faces S Hancock Street.
- (b) The waiver will not violate specific guidelines of Plan 2040; and
 - STAFF: The waiver will not violate specific guidelines of Plan 2040 as Plan 2040 encourages the development of guidelines for the relationship of proposed development to the street. The building has a relationship with the street with a proposed building entrance facing S Hancock Street.
- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and
 - STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant as the interior layout of the proposed building is conducive to a principal pedestrian entrance facing S Hancock Street, and not for one facing E Breckinridge Street.
- (d) Either:
 - (i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); **OR**
 - (ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant because the interior layout of the structure would have to be rearranged so as to provide for a pedestrian entrance along E Breckinridge Street.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR RDDDP

Published Date: July 22, 2020 Page 4 of 18 Case 20-ZONE-0030

- (a) The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;
 - STAFF: No natural resources are evident on the subject site. The existing structure is proposed to be preserved with a large addition provided.
- (b) The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community;
 - STAFF: Provisions for safe and efficient vehicular and pedestrian transportation within and around the development and the community has been provided, and Metro Public Works has approved the preliminary development plan.
- (c) The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed development;
 - STAFF: There are no open space requirements pertinent to the current proposal.
- (d) The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;
 - STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.
- (e) The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses with the existing and projected future development of the area;
 - STAFF: The overall site design is compatible with the existing and future development of the area.
- (f) Conformance of the development plan with the Comprehensive Plan and Land Development

 Code. Revised plan certain development plans shall be evaluated for conformance with the nonresidential and mixed-use intent of the form districts and comprehensive plan.
 - STAFF: The development plan conforms to applicable guidelines and policies of the Land Development Code with the exception of the requested variance and waiver.

REQUIRED ACTIONS

- RECOMMEND that Metro Council APPROVE or DENY the Change-in-Zoning from UN to C-1
- APPROVE or DENY the Variance
- APPROVE or DENY the Waiver
- APPROVE or DENY the Revised Detailed District Development Plan with Binding Elements

<u>Traditional Neighborhood: Non-Residential</u>

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
1	Community Form: Goal 1	6. Discourage non-residential expansion into existing residential areas unless applicant can demonstrate that any adverse impact on residential uses will be mitigated. Evaluation of impacts may include, but not be limited to, displacement of residents, loss of affordable housing units, traffic, parking, signs, lighting, noise, odor, and stormwater. Appropriate transitions from non-residential to residential uses should depend on the pattern of development of the Form District and may include natural vegetative buffers, landscaping or the use of higher density residential and/or non-residential.	√	The proposal would not constitute a non-residential expansion into a residential area, as the site is already partially zoned C-1 and is the site of an existing activity center.
2	Community Form: Goal 1	7. Locate higher density and intensity uses near major transportation facilities and transit corridors, employment centers, in or near activity centers and other areas where demand and adequate infrastructure exists or is planned.	✓	The site is located one block from S Jackson Street, a transit corridor.
3	Community Form: Goal 1	8. Encourage industries to locate in workplace Form Districts or in areas readily served by infrastructure and transportation facilities, including transit, rather than isolated industrial sites.	NA	The proposal is not for industrial zoning.
4	Community Form: Goal 1	15. When reviewing proposals for siting hazardous uses and uses with air, noise and light emissions, ensure disadvantaged populations are not disproportionally impacted.	✓	The proposed zoning district would not permit hazardous uses. Uses with air, noise and light emissions must comply with restrictions in the Land Development Code and Louisville Metro Ordinances.

Published Date: July 22, 2020 Page 9 of 18 Case 20-ZONE-0030

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
5	Community Form: Goal 1	16. Consider impacts on human health, quality of life and the environment including prevailing meteorological conditions and the potential to transport noxious odors, particulates and emissions when reviewing new developments and redevelopments. Special attention should be paid to air and water quality when residences, schools, parks or vulnerable populations will be impacted. Mitigate impacts to areas that are disproportionally affected.	✓	The proposed zoning district would not permit uses which generate noxious odors, particulates and emissions.
6	Community Form: Goal 1	17. Mitigate adverse impacts of traffic from proposed development on nearby existing communities.	√	The site is located on E Breckinridge Street, a primary collector.
7	Community Form: Goal 1	18. Mitigate adverse impacts of noise from proposed development on existing communities.	√	Noise impacts will be mitigated by the use of the abutting residential property as transitional housing.
8	Community Form: Goal 1	21. Require that industries which handle hazardous or flammable materials or are potentially offensive such as junkyards, landfills and quarries are sited to protect public health, safety and welfare and are located away from residential areas and population centers.	NA	The proposed zoning district would not permit industries which handle hazardous or flammable materials or are potentially offensive such as junkyards, landfills or quarries.
9	Community Form: Goal 2	1. Locate activity centers in appropriate areas in all Form Districts. Design and density should be compatible with desired form, adjacent uses, and existing and planned infrastructure.	✓	The site is already a small existing activity center, and is located at the corner. The design and density should be compatible with the desired form, adjacent uses, and existing and planned infrastructure.
10	Community Form: Goal 2	4. Allow non-residential development within the Neighborhood, Traditional Neighborhood and Village Form Districts to occur only at locations with appropriate access and connectivity.	✓	The site is located on the corner of a primary collector (E Breckinridge) and a local road (S Hancock) and has appropriate access and connectivity.
11	Community Form: Goal 2	5. Locate retail commercial development in activity centers where it can be demonstrated that sufficient population exists or is anticipated to support it.	√	The neighborhood is mixed-use with a number of existing small activity centers.
12	Community Form: Goal 2	6. Encourage a more compact development pattern in activity centers that result in efficient land use and cost-effective infrastructure investment.	√	The proposed zoning district would permit a more compact pattern of development in an activity center that would result in efficient land use and cost-effective infrastructure investment.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
13	Community Form: Goal 2	7. Encourage activity centers to include a mixture of compatible land uses in order to reduce traffic congestion by requiring fewer trips, support and enhance alternative modes of travel, and encourage vitality and a sense of place.	√	The proposed zoning district would permit a mixture of compatible land uses.
14	Community Form: Goal 2	8. Encourage residential land uses in designated centers. Encourage residential and office uses above retail and other mixed-use multi-story retail buildings.	√	The proposal includes residential zoning in proximity to an activity center.
15	Community Form: Goal 2	9. Encourage new developments and rehabilitation of buildings that provide commercial, office and/or residential uses.	✓	The proposal includes reuse of existing buildings for commercial and/or residential uses.
16	Community Form: Goal 2	10. Encourage outlot development in underutilized parking lots of existing development to promote utilization of existing infrastructure provided specific criteria for elements such as location, scale, signs, parking, lighting, and landscaping are met. Outlot development shall encourage street-level retail with residential units above.	NA	The proposal does not include underutilized parking lots.
17	Community Form: Goal 2	11. Ensure appropriate placement, design and scale of centers in Traditional Neighborhood, Neighborhood and Village Form Districts to ensure compatibility with nearby residences.	√	The placement, design and scale of the proposed center is appropriate for the location.
18	Community Form: Goal 3	9. Encourage development that respects the natural features of the site through sensitive site design, avoids substantial changes to the topography, and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	√	No natural features are evident on the subject site.
19	Community Form: Goal 3	10. Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes where the potential for severe erosion problems exists in order to prevent property damage and public costs associated with soil slippage and foundation failure and to minimize environmental degradation.	✓	No wet or highly permeable soils, or severe, steep or unstable slopes are evident on the site.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
20	Community Form: Goal 3	11. Encourage land uses within the Ohio River Corridor that are appropriate for and related to river corridor activities and that are consistent with the goals and objectives of the Ohio River Corridor Master Plan. Reserve appropriate riverfront sites such as the Upper River Road industrial area for river-related development. Allow development of commercial leisure businesses related to the river, such as boating services and restaurants in appropriate locations. Encourage new development in the Ohio River corridor and along key greenway and street connections to provide for public access in new riverfront development and to maintain views of the river from public rights-of-way.	NA	The subject site is not located in the Ohio River Corridor.
21	Community Form: Goal 3	12. When reviewing proposed developments consider changes to flood-prone areas and other features vulnerable to natural disasters such as sinkholes and landslides. Ensure appropriate measures to protect health, safety and welfare of future users of the development.	NA	The site is not located in a flood prone area or on karst terrain.
22	Community Form: Goal 4	1. Preserve buildings, sites, districts and landscapes that are recognized as having historic or architectural value and ensure that new land uses are compatible in height, massing, scale, architecture style and placement when located within the impact area of such resources.	√	The proposal re-uses existing structures.
23	Community Form: Goal 4	2. Encourage preservation of distinctive cultural features including landscapes, natural elements and built features.	✓	The proposal re-uses existing structures.
24	Mobility: Goal 1	4. Encourage higher densities and intensities within or near existing marketplace corridors, existing and future activity centers, and employment centers to support transit-oriented development and an efficient public transportation system.	√	The site is located on a small existing activity center and near a transit corridor at S Jackson Street.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
25	Mobility: Goal 2	4. Avoid access to development through areas of significantly lower intensity or density development if such access would create significant nuisances.	√	Access to the site is not achieved through areas of significantly lower intensity or density.
26	Mobility: Goal 3	1. Encourage a mix of complementary neighborhood serving businesses and services in neighborhood and village centers to encourage short trips easily made by walking or bicycling.	✓	The proposed zoning district would permit a mix of complementary neighborhood serving businesses and services.
27	Mobility: Goal 3	2. To improve mobility, and reduce vehicle miles traveled and congestion, encourage a mixture of compatible land uses that are easily accessible by bicycle, car, transit, pedestrians and people with disabilities. Housing should be encouraged near employment centers.	√	The proposed zoning district would permit a mixture of compatible land uses. The site is accessible by bicycle, car, transit, pedestrians and people with disabilities.
28	Mobility: Goal 3	3. Evaluate developments for their ability to promote public transit and pedestrian use. Encourage higher density mixeduse developments that reduce the need for multiple automobile trips as a means of achieving air quality standards and providing transportation and housing choices.	√	Transportation Planning has approved the proposal.
29	Mobility: Goal 3	4. Encourage development of walkable centers to connect different modes of travel. Siting of these multi-modal centers shall consider the effects of the following: 4.1. nodal connections identified by Move Louisville; 4.2. impact on freight routes; 4.3. time of operation of facilities; 4.4. safety; 4.5. appropriate linkages between neighborhoods and employment; and 4.6. the potential for reducing travel times and vehicle miles traveled.	√	Transportation Planning has approved the proposal.
30	Mobility: Goal 3	5. Evaluate developments for their impact on the transportation network (including the street, pedestrian, transit, freight movement and bike facilities and services) and air quality.	√	Transportation Planning has approved the proposal.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
31	Mobility: Goal 3	6. Ensure that those who propose new developments bear or share in rough proportionality the costs of transportation facilities and services made necessary by development.	✓	Transportation Planning has approved the proposal.
32	Mobility: Goal 3	9. When existing transportation facilities and services are inadequate and public funds are not available to rectify the situation, the developer may be asked to make improvements, roughly proportional to the projected impact of the proposed development, to eliminate present inadequacies if such improvements would be the only means by which the development would be considered appropriate at the proposed location.	√	Transportation Planning has approved the proposal.
33	Mobility: Goal 3	10. Ensure that necessary improvements occur in accordance with long-range transportation plans and level of mobility criteria for all modes of travel.	√	Transportation Planning has approved the proposal.
34	Community Facilities: Goal 2	Locate development in areas served by existing utilities or capable of being served by public or private utility extensions.	√	The relevant utilities have approved the proposal.
35	Community Facilities: Goal 2	2. Ensure that all development has an adequate supply of potable water and water for fire-fighting purposes. Locate only very low-density land uses on sites that use on-lot sewage disposal systems or on a private supply of potable water.	✓	Louisville Water Company has approved the proposal.
36	Community Facilities: Goal 2	3. Ensure that all development has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams as determined by the Metropolitan Sewer District (MSD).	✓	MSD has approved the proposal.
37	Economic Development: Goal 1	2. Encourage industries, to the extent possible, to locate in industrial subdivisions or adjacent to an existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial zoning.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
38	Economic Development: Goal 1	3. Locate commercial uses generating high volumes of traffic on a major arterial street, at the intersection of two minor arterials, or at a location with adequate access to a major arterial and at locations where nuisances and activities of the proposed use will not adversely affect adjacent areas.	√	The proposal is unlikely to generate high volumes of traffic.
39	Economic Development: Goal 1	4. Utilize industrial sites near the airport and the Ohio River to support the growth and development of uses whose infrastructure and production needs require such a location or for land uses that support airport-oriented or river-oriented industrial uses.	NA	The site is not located near the airport or the Ohio River.
40	Economic Development: Goal 1	5. Require industrial developments to locate with the appropriate transportation connectivity, near an arterial street or within existing industrial subdivisions.	NA	The proposal is not for industrial zoning.
41	Livability: Goal 1	17. Determine site susceptibility to erosion; identify the presence of on-site carbonate conditions and features that are vulnerable to site disturbance; identify the extent of existing groundwater use and the impacts of the project on groundwater resources, flow patterns, and existing and proposed surface drainage. Then mitigate potential hazards to such systems resulting from the project.	✓	The site is not located on karst terrain.
42	Livability: Goal 1	21. Mitigate negative development impacts to the integrity of the regulatory floodplain by encouraging development patterns that minimize disturbance and consider the increased risk of more frequent flooding events.	✓	The site is not located in the regulatory floodplain.
43	Livability: Goal 1	24. Ensure, to the extent feasible, that critical facilities and those that store or use hazardous wastes are located outside the regulatory floodplain. Where essential community facilities must be located within a floodplain (e.g., pumping stations), ensure that these facilities are designed, located and operated in a manner that minimizes loss of services during flood events as well as limits, to the extent possible, floodplain disturbance.	✓	The site is not located in the regulatory floodplain.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
44	Housing: Goal 1	2. Promote housing options and environments that support aging in place. Encourage housing for older adults and people with disabilities to be located close to shopping and transit routes and, when possible, medical and other supportive facilities.	✓	The proposal would support aging in place by permitting neighborhood-serving commercial uses in an established neighborhood, in addition to increasing the variety of housing in the area.
45	Housing: Goal 2	Encourage inter-generational, mixed-income and mixed-use development that is connected to the neighborhood and surrounding area.	✓	The proposed zoning district would permit inter-generational mixed-income and mixed-use development. The site is connected to the neighborhood and the surrounding area.
46	Housing: Goal 2	2. Locate housing within proximity to multi-modal transportation corridors providing safe and convenient access to employment opportunities, as well as within proximity to amenities providing neighborhood goods and services. Higher density, accessible residential uses should be located along transit corridors and in or near activity centers.	✓	The site is within proximity to S Jackson Street, a transit corridor.
47	Housing: Goal 3	2. As neighborhoods evolve, discourage displacement of existing residents from their community.	✓	No existing residents will be displaced by the proposal.
48	Housing: Goal 3	3. Encourage the use of innovative methods such as clustering, mixed-use developments, co-housing, and accessory apartments to increase the production of fair and affordable housing.	√	The proposal would permit innovative methods of housing.

4. <u>Existing Binding Elements (to be removed)</u>

- The development will be in accordance with the approved district development plan. No further development will occur without prior approval from the Planning Commission.
- 2. The liquor store shall not exceed 1,738 square feet of gross floor area. The second floor above the liquor store shall not be used.
- 3. Before any construction is begun:
 - a. The development plan must be reapproved by the City of Louisville Department of Inspections, Permits and Licenses and the Metropolitan Sewer District.
 - b. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Article 12. Such plan shall be implemented prior to requesting a certificate of occupancy and maintained thereafter.
 - c. The owner shall make improvements to the porch on the west side of the building.

- d. All necessary recording fees shall be paid.
- 4. The only permitted signs shall be attached as shown on the approved district development plan.
- 5. No outdoor advertising signs (billboards), small freestanding (temporary) signs, pennants or banners shall be permitted on the site.
- 6. If a certificate of occupancy is not issued within one year of the date of approval of the plan or rezoning, whichever is later, the property shall not be used in any manner unless a revised district development plan is approved or an extension is granted by the Planning Commission.
- 7. A certificate of occupancy must be received from the appropriate code enforcement office prior to occupancy of the structure or land for the proposed use. All binding elements must be implemented prior to requesting issuance of the certificate.
- 8. The above binding elements may be amended as provided for in the Zoning District Regulations.
- 9. The existing sidewalk on the subject property shall be repaired at the owner's expense to specifications approved by the Director of Public Works.

5. **Proposed Binding Elements**

- 1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
- 2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
- 3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
- 4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Construction Review, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a certificate of occupancy. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
 - c. A Tree Preservation Plan in accordance with Chapter 10 of the LDC shall be reviewed and approved prior to obtaining approval for site disturbance.

- d. A minor plat or legal instrument shall be recorded consolidating the property into one lot. A copy of the recorded instrument shall be submitted to the Division of Planning and Design Services; transmittal of the approved plans to the office responsible for permit issuance will occur only after receipt of said instrument.
- e. Final elevations/renderings shall be submitted for review and approval by Planning Commission staff. A copy of the approved rendering shall be available in the case file on record in the offices of the Louisville Metro Planning Commission.
- 5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
- 6. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system audible beyond the property line.
- 7. No idling of trucks shall take place within 200 feet of residential structures. No overnight idling of trucks shall be permitted on-site.
- 8. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.
