SECTION 3 - AGENCY DETAILS

Describe Agency's Vision, Mission and Services:

The mission of Whitehall House & Gardens is to preserve, educate and present the house as a Victorian interpretation of a southern plantation and to maintain and develop the grounds and gardens as a green space for future generations.

At just under ten acres, the grounds and gardens are a rich resource for both the amateur and professional horticultural enthusiast. We are especially proud of our arboretum, which contains over 200 trees, including rare specimens like a red stripe bark maple, European contorted beech, and a Sutnerii London Planetree. Our specimen flower garden features over 60 varieties of peonies; the formal Florentine garden bursts with color in the summer thanks to our collection of re-blooming hydrangeas; and the addition of two beehives in the spring of 2017 is ensuring that our flowers thrive. These are just a few examples of our gardens and ever-growing collection of wonderful trees and plants, an important component of Whitehall's educational outreach. In addition to programmatic opportunities, we also strive to share these resources as a source for propagation of interesting species.

We are constantly seeking new ways to share Whitehall's trees and gardens with our visitors, whether they are experts, novices, or visitors who just appreciate the beauty of the grounds. Gardening clubs from as far away as Tennessee, Michigan, Colorado, and Utah have visited Whitehall for garden tours. Whitehall also makes every effort to be a good neighbor and community member, and to that end, has embarked on a number of collaborations with other civic groups. We worked with the Metro Louisville Community Forestry Department, the Beals Branch Neighborhood Association, and the Lexington Road Preservation Area to remove invasive pear trees and to plant Ginkgoes in traffic islands in the Beals Branch neighborhood; we partnered with Councilman Bill Hollander's office and Brightside to replace dead trees in the Lexington Road traffic island in the last several years, and arranged planting of 5 Persian Parrotia and 3 Pink Pom Pom Redbuds; and we have worked with the Lexington Road Preservation Area over multiple years to plant canopy trees to build Lexington Road itself into a Garden District in both directions from Whitehall.

Aside from these community projects, one of our best opportunities for education outreach can be found in the Ralph Archer Woodland Garden, a Victorian stumpery nestled in a wooded corner of the grounds, and home to more than 150 species, sub-species or named fern cultivars. The Woodland Garden has been visited and admired by such noted pteridologists as Sue Olsen, author of the Encyclopedia of Garden Ferns; Dr. Michael Dirr, prolific author and an expert on woody plants; and the International Plant Propagation Society. This garden has also become a popular tour destination for regional garden clubs and other horticultural groups. A small but dedicated group of volunteers from the Jefferson County Master Gardeners' Association carefully tends to this garden. The Master Gardeners have also used this garden for a class on shade gardening as part of their "In the Garden" series, which is free and open to the public. Whitehall has offered a Woodland Garden Tour to the public to highlight conservation issues; this very popular event sold out several times. Horticulturalist (and president of the Hardy Fern Foundation) Richie Steffen traveled to Louisville to present a fern ID class at Whitehall in 2015 and again in 2018, drawing a devoted crowd of fern enthusiasts. The Woodland Garden offers a countless number of ways to share our love and knowledge of plants with the community. Finally, in 2020 we launched "Whitehall Wednesdays," a new monthly educational series for adults to explore plants within the disciplines of art, gardening, science and forestry.

SECTION 5 - PROGRAM/PROJECT NARRATIVE

A: Describe the program/project start and end dates, a description of the program/project and applicable data with regards to specific client population the program will address (attach related flyers, planning minutes, designs, event permits, proposals for services/goods, etc.):

Whitehall is requesting funds to defray the cost of a major plumbing project. In late August, Whitehall staff discovered that we had a gas leak and called LG&E to investigate. Their technician informed the staff that there were multiple gas leaks and immediately shut off the gas for safety. He recommended we have a plumber inspect the gas lines and appliances.

Jason Buffat of Bee's Plumbing arrived later the same day and said our underground gas pipes were leaking badly and the gas could not be turned back on until Bee's completed the repairs. John Buffat, owner of Bee's Plumbing, gave us a written estimate of \$13,000 to dig up the old pipes and replace them with new ones.

As we can't operate Whitehall without gas service, we approved the project immediately. Until the project is finished, our catering kitchen is not operational and our live-in caretaker does not have hot water or a working stove. In several weeks when the weather turns cool we will need to turn on our six furnaces. This project is crucial and unfortunately comes during the worst year we have experienced financially in over a decade. We expect the work to be completed in mid-September and our gas to be turned back on afterward.

B: Describe specifically how the funding will be spent including identification of funding to sub grantee(s):

Bee's Plumbing will be taking the old gas underground house lines out for the Carriage House and Mansion and replacing them with new lines. They will install new up-to-date gas flex risers for the Carriage House and Mansion. They will also redo the gas manifold on the gas meter that will include new connections for the Carriage House and Mansion as well as the office building. The cost for equipment is \$6,500 and the cost for labor is \$6,500.

E: Describe the program's benefits to those being served (measurable outcomes). Include the program's process for collecting data and the indicators that will be tracked to measure the benefits to those being served:
As this is an emergency capital repair, completion of this project will allow Whitehall to continue operating. Our catering kitchen, one of our main sources of income, has been useless for three weeks while the gas has been shut off. The project will also eliminate a large hazard, leaking gas pipes. This project will benefit everyone who uses Whitehall for exercise, private events, or fundraisers; approximately 5,000 people per year.
F: Briefly describe any existing collaborative relationships the organization has with other community organizations. Describe what those partners are bringing to the relationship in general and to this program/project specifically.
Whitehall is proud to contribute to green improvements to the community surrounding the Whitehall gardens. In addition to having served as a pass-through to help neighbors apply for NDF grants, Whitehall has also collaborated with neighbors on landscaping plans and have helped identify and acquire healthy and cost-effective plants.
In recent years, Whitehall has collaborated with the following organizations: Lexington Road Beautification Project, Lexington Road Preservation Area, Danes Hall, Beals Branch and Broad Fields neighborhoods.
Whitehall also offers a number of free or greatly reduced rentals for local nonprofits, including Anchal, Norton Children's Hospital Auxiliary, Trees Louisville, Cherokee Gardens, Jefferson County Master Gardeners, and many others. We are happy to share our space with other groups working to improve the Louisville area, especially those whose mission includes environmental causes.
