Neighborhood Meeting Minutes
20-CUPPA-0126 - Welders Supply
October 6, 2020

This is a summary of the virtual neighborhood meeting for the above referenced case. For a full account of the meeting please refer to the recording that was provided as a part of the formal CUP application.

The meeting began shortly after 6:30. Those in attendance included Tony Dawson with Alro Steel, EW Johnson with Med-Dyne, Kelli Jones with Sabak, Wilson & Lingo, and Larry Simpson, Louis Wright, Kelly Netherton and Frank Fogarty with Welders Supply. There was at least one other attendee who chose not to sign in.

Ms. Jones welcomed everyone and let them know the meeting was being recorded. She provided a quick summary on how to navigate GoToMeeting and then introduced Mr. Larry Simpson with Welders Supply. Mr. Simpson gave a brief history on Welders Supply.

Ms. Jones then gave a little more information about the subject site and its surroundings. She presented a rendering of the proposed plan and described the CUP being requested. She noted that there will be no manufacturing of these substances on site...only storage and some repackaging.

Then Ms. Jones presented a slide showing next steps include filing of a formal application, agency review, BOZA, and construction approvals.

After one last slide providing contact information for herself, the applicant, and the Metro case manager, she opened the meeting for questions. There were no questions and the meeting ended at approximately 6:50 PM.
