Dante

Please see the attached revised plan

Regarding item 2: the existing garage is only 26' from the property line. It will be cost prohibitive to relocate this. This is an existing structure that was there when the property was acquired. Also next property is almost 25' to 30' from our property line. This garage is used only for parking priest cars and used for storage. We are requesting relief from this requirement.

Regarding the item 8: we only have 29% tree canopy. So we will plant several more trees to get this to 35%. Let me know whether you want me to add any notes to the drawings regarding this

Please let me know if you need any thing else

Thanks

Shaminda Hubert, P.E., LEED AP
