Description

THE CITIZEN REPORTS THAT THE LAST 2 HARD RAINS THE WATER DID NOT GO DOWN IN THE ALLEY UNTIL 2 DAYS LATER. CITIZEN FEARS THAT THIS DRAIN THE WATER IN THIS ALLEY NEVER GOES DOWN AND IT TIMES A WHILE FOR THIS WATER TO GO AWAY.

Dear City Leaders,

EMW is continuing it's reporting and documentation that the city has been consistently notified of the safety and public health threats that take place 5 day per week in the 2 block area surrounding 136 W. Market St.

On Saturday, March 6, 2021 a patient and escort were assaulted. Video is available.

Below is information from our daily report for March 6, 2021.

There were only two legal observers present yesterday. There were 5 escorts present this morning. It was chaotic as most Saturdays are now, but there was the added awfulness of an assault by an unhoused person on a client and an escort. This was followed by an assault on the escort from regular protesters.

There were about 47 protesters present this morning at 7:50a who were not wearing masks. The count who were violating the KY executive orders for social distancing and mandatory masks was sent to the clinic around 7:57a for reporting. We will continue to document these violations. The clinic will continue sending a weekly report to the Health Department and Metro Council members. There were portable mics present this morning.

The escorts witnessed lack of social distancing, few masks worn correctly/consistently, blocking the entrance, blocking the sidewalk or street, volume high on loudspeaker, trespassing, and multiple misdemeanor assaults..

This was one of the most aggressive protester days we have had in awhile. We are concerned at the escalation of verbal abuse of escorts, clients and companions, blocking car doors, herding people, swarming, disregard for trespassing, and lack of personal space we have seen the past four months. We are concerned this will only become worse and the "kidnapping" of the client this morning is only the first time we will see this.

Daniel Nolan and Tanner Cartwright committed minor trespassing this morning. The major trespassing is described with the multiple assaults today.

The multiple assaults I'm going to briefly describe, but I'm attaching the screen shots from the Twitter account this morning telling about it.

Ongoing documentation to the city of Safety and Public Health Threats.

There continue to be public health and safety concerns--- in the 1.5 blocks in front, back and side streets of 136 W. Market St. Many of these protesters are aggressive and are violating current city ordinances. Many are known and we have photos and video available. These issues require immediate attention. Volunteers are trying to protect citizens on a public sidewalk.

In addition to being dangerous, this issue also affects the city's image, tourism and economic development efforts.

There continue to be public health and safety concerns--- in the 1.5 blocks in front, back and side streets of 136 W. Market St. Many of these protesters are aggressive and are violating current city ordinances. Many are known and we have photos and video available. And many city ordinances are violated daily. These issues require immediate attention. Photos and videos are available.

Best,

Dr. Ernest Marshall

Legal Observer report from January 15, 2021 is below.

There were 16 escorts present this morning from about 6a-9:50a

There were three car watchers in three separate vehicles present today from about 6a-9:50a.

There were about 80 protesters present today. It was difficult to get a precise count. There was a lot of crowding and movement on the sidewalks and in the different areas. There was only 1 unhoused person mentioned as being present during the observation period, but they were not in front of the clinic.

The escorts witnessed lack of social distancing, only 5 masks worn correctly/consistently, blocking the entrance, blocking the sidewalk or street, volume high on loudspeakers. trespassing and misdemeanor assault. There was an LMPD presence this morning. There was a reporter from the Courier-Journal present this morning.

The SRC people arrived early and brought loudspeakers and their video equipment. Some of them also had portable mics and body cams. When P82/KY OSA arrived, they had a loudspeaker as well and body cams. The preaching began at 750a. P82/KY OSA members lined up in front of the escorts on the property line of the clinic and at the entrance and started to sing hymns at 8a.

Subject public health & safety issue

Comment

There continue to be public health and safety concerns--- in the 1.5 blocks in front, back and side streets of 136 W. Market St. Many of these protesters are aggressive and are violating current city ordinances. Many are known and we have photos and video available. These issues need to be addressed.

Legal Observer report from January 9,2020 is below:

here were 14 escorts present this morning from about 7a-9:30a

There were four car watchers in four separate vehicles present today from about 5:45a-9:30a.

There were 3 legal observers on the sidewalk today. Their reports will be sent separately.

There were 15 protesters present this morning at 7:35a who were not wearing masks. The count who were violating the KY executive orders for social distancing and mandatory masks was sent to the clinic around 7:40a for reporting. We will continue to document these violations. The clinic will continue sending a weekly report to the Health Department and Metro Council members. There were loudspeakers in use today.

There were 62 protesters present today. There were 4-5 unhoused people mentioned as being present during the observation period.

The escorts witnessed lack of social distancing, only 10 masks worn correctly/consistently, blocking the entrance, blocking the sidewalk or street, volume high on loudspeakers and trespassing.

It was a very crowded, noisy sidewalk in front of the clinic. The SRC people arrived early and brought portable mic loudspeakers. John Faughn, Daniel Nolan, Spencer Smith and Brady Werne all had portable mics. They took turns preaching at the property line. While they each preached, they trespassed on the property line multiple times. Spencer and Troy had body cams and they also appeared to be live streaming as they preached.

Subject Ongoing public safety and health threats in the block of 136 W. Market St

Comment

5 days per week unmasked--no social distancing protesters continue to pose a safety and public health threat to our community. There are many city ordinances that are not being enforced. These protesters are allowed to stalk patients and companions at close range for over a block--and into the Jefferson Centre Parking garage, touch, shove, sing, loudspeakers break the sound ordinance which is enforced elsewhere, block a city designated drop off zone, threaten and intimidate.

Hello All,

Below is our legal observer observation report from today, 11/3/20. Many of these aggressive, loud, angry protesters are known regulars and know they can consistently break city ordinances. Tanner Carwright mentioned below has been punched by angry companions--we have video. Private citizens should not be dealing with this targeted harassment on a public sidewalk to access healthcare and private citizens should not be needed to protect them and de-escalate these situations.

We would welcome a conversation soon and hope to work together to address these concerns.

Best,

Ona Marshall

Subject Health threat-covid 19--city ordinances not enforced

Comment

Legal observer report from 10/10/20 EMW Women's Surgical Center, 136 W. Market St.

There were 12 escorts present this morning from about 7a-9:30a

There were no car watchers present today.

There were 2 legal observers on the sidewalk. There were 74 protesters present today.

The escorts witnessed lack of social distancing, 14 masks worn correctly/consistently, blocking the entrance, blocking the sidewalk or street, trespassing.and volume high on loudspeakers.

LMPD were called at 8:38a about the loudspeakers being so high and so many protesters present without masks. Car #6766 responded about 8:48a and parked at a meter across the street from the clinic. The officer remained in the squad car and did not speak with anyone present. The car left about 8:56a. There were no changes in the lack of social distancing, lack of masks or the high volume on the loudspeakers--breaking the sound ordinance.

The city needs a solution to this issue to protect its citizens from the pandemic and crimes committed on a public sidewalk. Many of these protesters are known, consistent violators of our laws.

This issue impacts our city's image and economic development. These concerns will be an issue for the hotel scheduled to be built across the street. We are in communication with the owners of the property.

Best,

Abortion Clinic

Citizen reporting about 14 people with 3 children at the back gate standing very close about 2-3 inches apart and none of them have on mask

EMW WOMENS CLINIC-CALLER REPORTS NO MASKS OR SOCIAL DISTANCING FRONT OR REAR

An overlay district permit to replace existing windows with stucco panels and rows of glass on .36 acres in a C3 zoning district.

@octopus\_hug

The sidewalk is clearly blocked this morning at EMW Women's Surgical Center. Public safety standards need to be enforced, and clients deserve to seek medical care without this targeted and aggressive harassment. We need a buffer zone.

<p>COVID  Today there were 12 protesters not practicing safe social distancing. they're not staying 6 ft apart. They are not wearing masks. They are putting people who are seeking medical attention in danger. I'm still waiting to know what Metro is going to do to take steps to fix this problem.</p>
<p>Today there were 20 people not observing social distancing or wearing masks and front of this medical office. Is Metro planning to take action at any point? Seems like if you were actually going to do something about it you would send someone to disperse these people since they're doing this every single day.</p>
<p>What action are you intending to take to disperse these people?</p>
<p>COVID  On Saturday May 16th, there have been large gatherings of at least 63 people observed at EMW Women’s Surgical Center located at 136 W. Market St.</p>

COVID

There have been large gatherings of people observed at EMW Women's Surgical Center located at 136 W. Market St. Please disperse this crowd to

Today there were 12 protesters outside not practicing safe social distancing. In fact, they were assaulting people by pushing them and shoving them as they were trying to enter a medical office. Is Metro going to do anything to disperse these people? I personally have been reporting for over 2 weeks and it applies that you are not going to do anything. It's a shameful way to protect the citizens of our city.

On May 20th, 12 anti-abortion protesters crowded the sidewalk of W. Market. Volunteer car observers saw protesters pushing and shoving people trying to enter the clinic. This is especially egregious during a time when folks are told to stay 6 feet apart.

There have been large gatherings of people observed at EMW Women's Surgical Center located at 136 W. Market St. Please disperse this crowd to

There have been large gatherings of people daily at the EMW Clinic on Market St, not wearing masks, not social distancing and also harassing patients

COVID

There have been large gatherings of people observed at EMW Women's Surgical Center located at 136 W. Market St. Please disperse this crowd to

There have been large gatherings of people observed at EMW Women's Surgical Center located at 136 W. Market St. Please disperse this crowd to continue to keep people safe at a distance. Today, 5/19/2020, there were 16 people totally blocking the door to the establishment. Please note that one of their signs is blocking the fire hydrant as well.

None appear to be wearing PPE, even though anybody who came out this door would be right in their faces.

63 people. There were 63 people not practicing social distancing today. These people were preventing other people from seeking medical care. 63!  
When are you guys actually going to do something about this?

These people need to be dispersed. They need to be told to wear masks. They need to be told to keep 6 ft of distance between each other and the patients who are trying to access medical care. Metro, you are not fulfilling your obligation to the citizens of Louisville. You are to keep all citizens safe.

There is a large crowd gathered at the women's clinic on the 100 block of W Market. Sidewalk is blocked. Only masks I see are on the clinic escorts. Not a public official in sight to disperse those blocking the way or yelling (unmasked) at passerby. Why is this allowed to happen? What is metro government going to do about this?

I look forward to your reply and I look forward to this behavior ending— or at least getting tacit blessing from metro government.

Sarah Marlowe

COVID On Saturday May 16th, there have been large gatherings of at least 63 people observed at EMW Women's Surgical Center located at 136 W. Market St. For the benefit of all, and especially the patients entering the EMW clinic, you MUST put in a safety corridor so the patients are not contaminated by these irresponsible protestors.  This is incredible!!!! Mayor Fischer a dGovernor Beshear, a Safety corridor is needed immediately . Can you not see this? Do the right thing, now!!!  Frances Weinstock MD
Approximately 60 people, unmasked, standing without distancing, harassing people outside the women's health clinic downtown. WE NEED A SAFETY ZONE WE NEED A SAFETY ZONE WE NEED A SAFETY ZONE Do the right thing!
COVID There have been large gatherings of people observed at EMW Women's Surgical Center located at 136 W. Market St. Please disperse this crowd to
COVID On Saturday May 16th, there have been large gatherings of at least 63 people observed at EMW Women's Surgical Center located at 136 W. Market St. The protestors at EMW are not following the mandatory socialsocial-distancing requirements set forth by Governor Beshear. They are out, en masse, every single day and they are blocking the entrance. They do not distance and don't wear masks.  It is beyond time that something is done. They are going to infect others. If large gatherings are not allowed elsewhere, then this one isn't either. There are always more than 10. They often have children with them who are unprotected.

136 W. Market St. Outside EMW Women's surgical Center. Caller said there was a gathering of 60 people protesting this morning. The caller has seen this activity multiple times and has called this hotline several times but they do not see any change.

I called EMW to try and get some more information. The employee I spoke to said that a crowd gathers every Tuesday thru Saturday start at 7:30 and stay through check in time. They said the crowd is largest first thing in the morning and starts to dwindle. This morning around 7:30am to 8:30am there were close to 100 people, 50 on one side of building and 30 on the other side. When the workers drive in they are able to pass safely through the gate.

Again this morning there were 63 people outside of the EMW clinic at 136 W Market St.

Were they wearing masks? NO

Were they social distancing? NO

Were they intentionally getting the faces of strangers to intimidate them? YES

Were they creating an enormous amount of noise? YES

Were they blocking and accosting strangers on the sidewalk? YES

Were they trespassing? YES

Was LMPD present staying warm and dry in their cars? YES

Were you doing your job? NO NO NO NO NO NO

If this was 60+ young black people gathered in a public place making this kind of noise, disrupting the flow of pedestrian and motor traffic, you would have it disbanded in 5 minutes – you know this is true. I know this is true – I've seen it.

And no, I'm not a West End radical, I'm a retired white woman in the East End and I'm tired of this double standard

There were 63 protestors outside of EMW today. That more than constitutes a mass gathering. They do not wear masks and they do not stay 6 ft apart (obviously, since it's a small area).

Do something about this nonsense already. These women should be able to get treatment without worrying about COVID-19. The city's lack of action is

PROTESTERS NOT PRACTICING SOCIAL DISTANCING AND HAVE A LOUDSPEAKER WHICH IS CAUSING DIFFICULTY INSIDE CLINIC-EMW CLINIC
COVID
EMS WOMENS CENTER: There is a protest outside of the EMW Women's Center at 136 W Market St. They are not practicing social distancing and @louisvillemayor
, maybe you could start taking license plate numbers here, where people are congregating and purposely getting in the faces of others.-EMW WOMENS- COVID19

COVID

EMW WOMENS SURGICAL ABORTION FACILITY: EMW Women's Surgical Abortion facility is violating the non-compliance order that has been implemented. This is an elective procedure - a Choice. Governor Beshear's executive order states only life-sustaining businesses may remain open. The number of patients along with their escorts and the abortion facility workers also cause concern regarding the social distancing guidelines.

caller reports due to covid19 why are we still performing abortions

CALLER REPORTS 20 PATIENTS AND ACCOMPANYING GUESTS ARE INSIDE THIS CLINIC RIGHT NOW-COVID-19

Close EMW

Your Comment:

Hello,

I hope you are well. As you may know, Governor Beshear has asked many businesses and institutions to close due to the corona virus pandemic. Sadly, and unacceptably, the EMW abortion clinic is still open and performing abortions. This is in violation of Governor New years request that all non-essential medical providers close. Abortion is not an elective medical procedure. Abortion is wrong. EMW should be closed. Please hear this message

THE CITIZEN STATES THAT THE EMW WOMEN CENTER IS STILL ALLOWING PEOPLE TO COME AND GO AND THEY ARE NOT PRACTICING SAFE DISTANCE. TH
