PLANNING &
DESIGN SERVICES

The purpose of this letter is to ask you to please consider our request to allow us to maintain the 6 foot private fence that we build on our property. We built the private fence on our property to protect our property and provide a safer place for our 6 year old daughter. In our neighborhood several crimes have happened such as assaults, trespassing, robberies. We ourselves have had to call the police for that reason several times. We also have at least 2 neighbors with a history of child abuse a few meters from our property, as indicated by public records. Our responsibility is to care for and protect our 6-year-old girl. We also have a Hoski dog who jumps the fence 4 feet and we do not want to lose her, much less that she hurts someone outside our property, the safety of us and the neighbors is very important to us. Also one of our neighbors has a fence similar to ours a long time ago and it has never presented a problem for the neighborhood. The neighbor next to our house has a pool and the fence is only 4 feet long, we think it is not safe for our little girl. When we had the 4-foot fence it was a danger for our little girl, because the people walking down the street and the drivers threw garbage, empty cans, glass bottles, stones, food leftovers and more to our patio. We could barely allow our daughter and dog to come out to play in our yard. Since we have this new fence we no longer have these problems, we feel that it is safer for our girl and the pet to play without being exposed to these dangers. In addition, the fence does not present any health risk, nor is it an obstacle for drivers or pedestrians. Although the speed limit is 25 miles per hour, many drivers go through both streets at more than 70 miles per hour, with the 4 foot fence we were always afraid that our little one or our pet would jump and be run over by an irresponsible driver. In these times in which crime and violence have tripled, we can allow our daughter to go out to our patio to play with the peace of mind that she will not have any danger even though we always supervise her, so please take into consideration our request. We have always strived to be exemplary citizens and comply with government laws and we do not

want to cause any harm to our neighbors, we just want to feel safer and have a little privacy. Some of our neighbors have expressed the desire to have a private fence like ours, which offers greater protection. Please consider our request. Thankfully
