Subject: Case Number: 21-Variance-0099

Zachary,

I'm writing in support of the 21-Variance-0099 located at 506 Tiffany Lane. The Harden's purchased this house with the intention of completely rehabbing the exterior and interior of a home that was at one time not visible from the street due to overgrowth. They have done these improvements, which took a year and hundreds of thousands of dollars with great respect and attention to the style of homes in Rolling Fields. The addition of a garage was always part of this vision and plan and they've gone back to their architect multiple times in an attempt to impede on the variance as little as possible and be accommodating to their neighbors. There is no doubt that the addition of the garage would further enhance the curb appeal of their home which they have already drastically improved.

We ask that you please reconsider your position and allow the Harden's to proceed with their plans to build a garage.

Sincerely,

Matt and Susan Stack

520 Country Lane
Rolling Fields, KY 40207
