**Public Hearing**

**Case No. 23-VARIANCE-0119**

**WHEREAS**, the requested variance will not alter the essential character of the general vicinity since the tallest structures are setback significantly from adjacent single-family properties, with 2-story buildings located closest to the public streets. The adjacent properties facing Outer Loop are large religious institutional sites, and

**WHEREAS**, the requested variance will not adversely affect public health safety or welfare since the buildings will be constructed in accordance with all applicable building and fire safety codes, and

**WHEREAS**, the requested variance will not allow an unreasonable circumvention of the zoning regulations since the 4 story structures are located mainly interior to the site with significant setbacks from the single-family properties behind the site, and

**WHEREAS**, the requested variance does not arise from special circumstances which do not generally apply to land in the general vicinity or the same zone, and

**WHEREAS**, the strict application of the provisions of the regulation would not deprive the applicant of reasonable use of the land, but would lead to a less efficient development pattern with less open space and more impervious surface, and

**WHEREAS**, the circumstances are not the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought; now, therefore be it

**RESOLVED**, the Louisville Metro Board of Zoning Adjustment does hereby **APPROVE** the requested Variance from Land Development Code Table 5.3.1 to permit buildings to exceed the 35-foot maximum height by up to 10 feet (Requirement 35ft., Request 45ft., Variance 10ft)

**The vote was as follows:**
