Public Hearing

Case No. 16COA1167 Appeal

Summary of testimony of those in favor of the appeal:

00:32:26 Christopher White, the appellant, presented his case and showed a Power Point presentation (see recording for detailed presentation.) He reviewed the historic significance of the façade, and said the approval of “falsely historic” design elements is inappropriate. He reviewed the 10 design guidelines which he said were not met; also, the “Historical Signifiers” of the façade design.

00:40:55 Mr. White reviewed the history of the building and the showed the original 1939 designs, as well as the final 1947 design.

00:51:05 Mr. White discussed the Secretary of the Interior Standards as opposed to Four Approaches to the Treatment of Historic Properties. He reviewed the Secretary of Interior Standards.

00:56:05 Mr. White described the “procedural irregularities” he felt took place during the Committee meetings.

Nick Ellis [building owner], CFG Holdings, 1465 South 4th Street, Louisville, KY

01:00:38 Nick Ellis, the building owner, presented his case. He said the building never looked like the architects’ renderings, and pointed out the differences. He said the Victorian roofs were never removed. Mr. Ellis passed out photos of the site, and stated that the pieces of granite on the façade are “broken and decaying”. He also disputed a statement that the two ARC meetings were “contentious”.

The following spoke neither for nor against the appeal (“Other”):

No one spoke.

Commissioners’ Questions/Discussion:

October 20, 2016**

Public Hearing

Case No. 16COA1167 Appeal

01:11:37 Commissioner Weeter asked Ms. Darr about the architectural firm that designed this building in 1939. Ms. Darr gave a brief summary of the history of the firm. In response to another question from Ms. Weeter, Ms. Darr said that some of the other buildings designed by this firm have been designated as landmarks.

01:13:54 Commissioner Vice said that this structure is in the Old Louisville Preservation District – is this a “contributing structure” in this district? Ms. Darr said it was not, and explained why. This local preservation district was created in the early 1970’s. She discussed the history of this district and how this building fit into that. It is the National Register district in which the building is considered “non-contributing.”

01:17:37 Robert Keesaer discussed past practices about how older and newer historic designations have been applied in different districts (see recording for detailed presentation.) Commissioner Weeter also commented about how local municipalities follow national guidelines. Cynthia Johnson Elmore discussed how the Landmarks Ordinance provides designations as individual buildings age.

01:21:28 Commissioner Vice asked for clarification as to which standard this building will be held to. He asked if the Old Louisville ARC made its decisions based on the judgement that this building was outside of the period of significance and was therefore not subject to protection from the Guidelines. Ms. Darr said that was the justification that the ARC came to.

01:24:03 Commissioner Weeter discussed how National Register designations are used as planning tools.

01:25:31 Commissioner Liu said that there were 10 Guidelines cited by Mr. White that he said were not met, but there appeared to be 44 Guidelines that were met. She asked Ms. Darr if cases are approved only if all Guidelines are met. Ms. Darr said it depends on each individual case.

Commissioner Stottman left the meeting at approximately 10:30 a.m. but returned at approximately 10:45 a.m.

01:26:37 Commissioner Bajandas asked if there was any conflict of interest that was raised by Mr. White regarding Mr. Bajandas's prior knowledge of the architect before the meeting. Staff, legal counsel, and the ARC Committee and

the Historic Landmarks Commission did not see any conflict. Ms. Darr said he had publicly brought that up at the start of the ARC meetings.

01:28:00 Commissioner Bajandas asked Ms. Darr why her staff report had no recommendation either for or against the request. Ms. Darr explained there were some areas where it was not clear to staff how to apply the Guidelines – is this structure Victorian or Art Deco? That is why the issue was given to the ARC to determine. Commissioner Bajandas said any decision regarding this building will not set a precedent for the Victorian buildings in the neighborhood.

01:32:40 Commissioner Weeter referred to the photo of the primary facade of the building and discussed similarities and differences from the 1947 elevations. She said she strongly believes that this building has “a high level of architectural integrity” and that the building is significant.

01:36:08 Mr. Ellis said this architectural firm is known for their bus terminals. He added that only the front façade was developed in the Art Deco style; the three remaining sides retain their Victorian character. He also discussed his experience regarding Kentucky Historic Tax Credits.

01:46:49 Commissioner Weeter said that, in their letter dated October 5, 2016, the State Historic Preservation Office stated that, based on “new information”, they now support the conclusion of National Register eligibility for this structure.

01:47:10 Mr. White said a precedent is being set, by destroying a facade and putting in “false historical” elements. Commissioner Bajandas argued that the ARC’s decisions in this case do not set a precedent for the Victorian buildings in the area.

01:50:43 Commissioner Vice briefly reviewed the case and the guidelines and procedure to consider an appeal.

Motion and Discussion:

01:52:23 Commissioner Doutrick made a motion to uphold the Old Louisville Architectural Review Committee’s decision, for the reasons as stated in the Certificate of Appropriateness. Motion was seconded by Commissioner Liu.

Public Hearing

Case No. 16COA1167 Appeal

01:53:12 In response to a question from Commissioner Weeter, Ms. Darr said the elevations from 1947 were presented to the ARC but not the 1939 plan. This was new information that was provided by Mr. White. (See recording for detailed discussion.) She also brought up the October 5, 2016 letter from the State Historic Preservation Office, which arrived after the August and September meetings of the ARC. Tax credits were also discussed between Commissioner Weeter and Mr. Ellis.

02:00:11 Commissioner Stottman described how ARCs are intended to function, as well as his opinions on this case.

RESOLVED, the Louisville Metro Historic Landmarks and Preservation Districts Committee does hereby **UPHOLD** the Old Louisville Architectural Review Committee's decision, for the reasons as stated in the Certificate of Appropriateness.

YES: Commissioners Liu, Stottman, Haskins, Hartman, Doutrick, Vice, and Jones.
