Variance from Land Development Code Table 5.3.2 to allow a proposed drive thru lane to encroach into the required side yard setback:

WHEREAS, the Louisville Metro Board of Zoning Adjustment finds that the requested variance will not adversely affect the public health, safety, or welfare. By locating the drive-thru lane and queuing spaces within the setback, the site can accommodate the drive-thru concept while still providing the required off street parking and screening requirements, and

WHEREAS, the Board further finds that the requested variance will not alter the essential character of the general vicinity as the site is primarily surrounded by commercial uses which generally do not require a side yard setback, and

WHEREAS, the Board further finds that the requested variance will not cause a hazard or nuisance to the public because this plan provides for additional landscaping and plantings that will reduce the nuisance in the future, and

WHEREAS, the Board further finds that the requested variance will not allow an unreasonable circumvention of the zoning regulations as alternatives for the placement of the drive-thru lane have been considered; now, therefore be it

RESOLVED, the Louisville Metro Board of Zoning Adjustment in Case Number 20-VARIANCE-0166 does hereby **APPROVE** Variance from Land Development Code Table 5.3.2 to allow a proposed drive thru lane to encroach into the required side yard

setback (Side Yard Requirement 15 ft., Request 5 ft., Variance 10 ft.), SUBJECT to the following Condition of Approval.

Condition of Approval:

1. The applicant shall provide trees similar to what is shown in the rendering provided by the applicant.

The vote was as follows:

Yes: Members Buttorff, Bond, Jagoe, Vice Chair Seale, and Chair Howard

Absent: Member Leanhart

00:49:18 On a motion by Vice Chair Seale, seconded by Member Buttorff, the following resolution, based upon the Standard of Review and Staff Analysis, the testimony heard today, and the applicant's justification statement, was adopted:

Waiver from 10.2.4 to not provide the 25 ft. landscape buffer area between a commercial use and residentially zoned property:

WHEREAS, the Louisville Metro Board of Zoning Adjustment finds that the waiver will not adversely affect adjacent property owners because the residentially zoned parcel prompting the landscape buffer is vacant. Additionally, the existing conditions of the site do not provide a landscape buffer area, and

WHEREAS, the Board further finds that Guideline 1, Policy 4 strives to ensure new development and redevelopment are compatible with scale and site design of nearby existing development with the desired pattern of development within the Form district. The waiver will not violate specific guidelines of Cornerstone 2040 as the proposal will allow for the redevelopment of the site in a manner that is appropriate for the form district. The waiver will not allow an unreasonable circumvention of the regulations or cause a hazard to the public, and

WHEREAS, the Board further finds that the extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant. Given the width of the lot, the waiver is needed in order to provide the space required to accommodate the drive-thru concept. Other areas of the site will provide landscaping, and the applicant must either provide the required trees in the buffer area or pay the fee in lieu, and

BOARD OF ZONING ADJUSTMENT MINUTES
February 15, 2021

PUBLIC HEARING

CASE NUMBER 20-VARIANCE-0166

WHEREAS, the Board further finds that the strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land because the width of the lot would not accommodate the VUA necessary to have a drive-thru line if a 25ft landscape buffer area is required. The development proposal will increase the amount of landscaping that currently exists at the site; and

Waiver from 10.3.5.A.7 to allow vehicular use area to encroach into the required parkway buffer area:

WHEREAS, the Louisville Metro Board of Zoning Adjustment finds that the adjacent property zoned residential is vacant and has frontage along a heavily traveled Parkway. The owner is not aware of an intention to develop the adjacent property with a residential use. The proposed driveway crossing utilizes the site for full traffic circulation within the site. This feature will help to reduce backup on Bardstown Road, and

WHEREAS, the Board further finds that the proposed development will improve the property and create a neighborhood space in-line with the comprehensive plan for this area, and

WHEREAS, the Board further finds that the waiver of this buffer is the minimum necessary to allow the site to be developed. Approximately 28% of the property is within the Bardstown Road Parkway Buffer. The proposed encroachment allows full circulation of the site. This feature will help prevent back-ups on Bardstown Road, and

WHEREAS, the Board further finds that the strict application of this buffer would severely restrict the re-development of this property. The re-development of this property will reduce the amount of pavement in the Buffer and provide the required plantings. This site will provide an amenity to the neighborhood; now, therefore be it

RESOLVED, the Louisville Metro Board of Zoning Adjustment in Case Number 20-VARIANCE-0166 (20-WAIVER-0132) does hereby **APPROVE** Waiver from 10.2.4 to not provide the 25 ft. Landscape Buffer Area between a commercial use and residentially zoned property, and Waiver from 10.3.5.A.7 to allow vehicular use area to encroach into the required parkway buffer area.

The vote was as follows:

Yes: Members Buttorff, Bond, Jagoe, Vice Chair Seale, and Chair Howard
Absent: Member Leanhart

PUBLIC HEARING

CASE NUMBER 20-VARIANCE-0179

01:01:26 On a motion by Member Jagoe, seconded by Member Bond, the following resolution, based upon the Standard of Review and Staff Analysis, and the testimony heard today, was adopted:

WHEREAS, the Louisville Metro Board of Zoning Adjustment finds that the requested variance will not adversely affect the public health, safety or welfare, because the proposed addition must be constructed to comply with all building codes, including fire codes; however, staff is concerned that the variance could adversely affect the adjacent property owner to the south because construction and maintenance of the structure may require encroachment onto the property. Based upon testimony heard today, the Board finds that this Standard is met, and

WHEREAS, the Board further finds that the requested variance will not alter the essential character of the general vicinity as there are multiple other accessory structures similar in size on adjoining properties, and

WHEREAS, the Board further finds that the requested variance will not cause a hazard or nuisance to the public because the structure must be constructed to comply with all building codes, and

WHEREAS, the Board further finds that the requested variance will not allow an unreasonable circumvention of the zoning regulations as the proposed addition will be the same distance from the side property lines as the existing structure; now, therefore be it

RESOLVED, the Louisville Metro Board of Zoning Adjustment in Case Number 20-VARIANCE-0179 does hereby **APPROVE** Variance from Land Development Code Section 5.4.2.C.3.a to allow an addition to an existing accessory structure to encroach into the required side yard setback (**South Side Yard Requirement 2 ft., Request 0 ft., Variance 2 ft.**).
