SPONSORED BY: COUNCIL MEMBER BILL HOLLANDER

WHEREAS, the Legislative Council of the Louisville/Jefferson County Metro Government (“Council”) acknowledges that the Lexington Road area in the Irish Hill neighborhood, as hereinafter defined, contains a variety of zoning classifications and land uses that are conflicting or have the potential to create land uses that are incompatible in terms of intensity, external impacts, building scale and types and otherwise are contrary to a well-planned and cohesive neighborhood;

WHEREAS, for the purposes of this Ordinance “Lexington Road Study Area” is defined as all lots abutting Lexington Road between and including from Baxter Avenue to the bridge where Beargrass Creek crosses Lexington Road on the eastern most crossing past Quarry and along the Charlton Street ROW;

WHEREAS, the Council believes that a land use study of the Lexington Road Study Area should be undertaken to evaluate current and potential land uses under the existing zoning designations, and recommend any appropriate zoning map amendments for the study area to address conflicting and incompatible land uses;

WHEREAS, the Council would like to create a period wherein no new non-residential development applications, including without limitation, rezoning, conditional use permit, major subdivision and plan certain, category 2B and 3 development plan applications will be accepted while undertaking a study of the area to generate recommendations to create more compatible land uses within the Lexington Road Study Area;

WHEREAS, it is anticipated that such a study will take approximately six months to initiate and complete; and

WHEREAS, during the pendency of such study, the Council desires to preserve the status quo by preventing changes to the existing land uses.

NOW THEREFORE BE IT ORDAINED BY THE LEGISLATIVE COUNCIL OF THE LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT AS FOLLOWS:

SECTION II: The Council hereby requests that the Planning Commission, through its staff in

Louisville Metro Planning and Design Services, conduct a land use study in the Lexington Road Study Area to evaluate current and potential land uses under the existing zoning designations, and recommend any appropriate zoning map amendments for the study area to address land uses that are conflicting or have the potential to create land uses that are incompatible in terms of intensity, external impacts, building scale and types and otherwise are contrary to a well-planned and cohesive neighborhood; and that the Planning Commission hold a public hearing and forward its recommendations to the Council within one hundred and fifty (150) days from the effective date of the Ordinance.
