

Unedited Transcript of Parks and Sustainability Committee Meeting -
August 6, 2026

WEBVTT

1 "Harward, Sonya" (2406394368)
00:00:01.140 --> 00:00:21.140
That's where we get our.

2 "Harward, Sonya" (2406394368)
00:00:25.290 --> 00:00:45.290
One thing that's not on here is.

3 "Harward, Sonya" (2406394368)
00:04:45.179 --> 00:05:05.179
Yeah I think so. If it's not in this one, it's definitely in my other one
downstairs. Sure.

4 "Harward, Sonya" (2406394368)
00:11:33.299 --> 00:11:53.299
Okay. Okay.

5 "Harward, Sonya" (2406394368)
00:11:56.909 --> 00:12:16.909
I'm sure.

6 "Harward, Sonya" (2406394368)
00:14:38.609 --> 00:14:54.509
But everybody.

7 "Harward, Sonya" (2406394368)
00:17:24.089 --> 00:17:41.489
Anything else?

8 "Harward, Sonya" (2406394368)
00:18:35.279 --> 00:18:51.569
1st one.

9 "Harward, Sonya" (2406394368)
00:19:09.899 --> 00:19:25.469
Yeah, sorry.

10 "Harward, Sonya" (2406394368)
00:19:25.469 --> 00:19:45.469
Metro TV 30 s.

11 "Harward, Sonya" (2406394368)
00:20:31.229 --> 00:20:48.839
This is a regularly scheduled parts of sustainability committee. Today is
today's 6 August, correct? Yes, 6 August. Welcome back to JCPS students
to school today. We have three items on the agenda, we are.

12 "Harward, Sonya" (2406394368)
00:20:48.839 --> 00:21:08.839

Holding still item number one. We're gonna go ahead and start with item number 2R-09-26a resolution authorizing the mayor accepting a grant of \$75000 from Kentucky Energy and environment cabinet. Department for environmental protection for.

13 "Harward, Sonya" (2406394368)

00:21:08.839 --> 00:21:21.029

The Coy's Park playground rubber Mulch project administered by the Department of Parks and Regulations. Is there anyone here to speak to that today?

14 "Harward, Sonya" (2406394368)

00:21:21.029 --> 00:21:41.029

Well. All right, there we go, we're moving. Alright, good afternoon. I'm Jason Canyuel, the director at Global Parson Recreation. This agenda item in resolution. This was a grant that we applied for. It's a state grant that utilizes.

15 "Harward, Sonya" (2406394368)

00:21:41.029 --> 00:21:53.909

Is Kentucky sourced recycled rubber, that we're gonna use in the port and play surface there at the Erichoy Park playground replacement project.

16 "Harward, Sonya" (2406394368)

00:21:53.909 --> 00:22:09.779

Sounds like a fabulous thing that we're gonna do to make it safer for kids on the playground. So, on favor, Argentini, follow the procedures. Thank you mr. Chair.

17 "Harward, Sonya" (2406394368)

00:22:09.779 --> 00:22:25.769

I don't know. I'm curious the the primary sponsor isn't here. You know, should we continue with this or, NO, I'm just kidding. It sounds great. Where's the grant from? It's from the state and Environmental protection cabinet. How does that work?

18 "Harward, Sonya" (2406394368)

00:22:25.769 --> 00:22:45.769

Like what's the reason for other parks I mean look I'm proving this I'm just saying like, what's the extent that we can use that for other parks and things like that? For other playgrounds that we have that utilize port and place for other surfaces, this is applicable. It's a grant application. I'm not sure what when the grant application.

19 "Harward, Sonya" (2406394368)

00:22:45.769 --> 00:22:57.209

Patients open again, but if we have a playground project that's in the pipeline, that does utilize the port and place for other surface, we are planning to apply for that grant in the future. Yes. Thank you very much. Yes.

20 "Harward, Sonya" (2406394368)

00:22:57.209 --> 00:23:17.209

Thank you. I think what Councilman was trying to say is, how does he apply for a park in his district? For long run, e.g.. I just throwing it out there. Councilman Murray. Okay, thank you very much. I just want clarification. So I've seen rubber Mulch that's chopped up like wood chips, and then I've seen the.

21 "Harward, Sonya" (2406394368)
00:23:17.209 --> 00:23:17.909
Act.

22 "Harward, Sonya" (2406394368)
00:23:17.909 --> 00:23:37.909
Is the mat what we're talking about here when you call it port in place? Neither. There, there's a 3rd, so the port in place rubber, It's like a system. So beneath what you see at Iraqi right now, the maron color at the top, that's chrome rubber, that's, that's been colored, but that is on top of.

23 "Harward, Sonya" (2406394368)
00:23:37.909 --> 00:23:48.989
Of like a four or 5 " layer of a, head impact attenuation surface or that's where the rubber comes in. It's basically glued together a rubber surface underneath the color.

24 "Harward, Sonya" (2406394368)
00:23:48.989 --> 00:24:04.139
So what this grant is going to help us do is to apply for that important place rubber surface the the head impact continuation surface underneath the color. Yes.

25 "Harward, Sonya" (2406394368)
00:24:04.139 --> 00:24:24.139
Okay, I know when that stuff is fresh and new, you can go bouncy, bouncy bouncy on it. Right, so we we have ASTM standards that we have to meet for it's called head impact attenuation. And that's comparable to a child falling off of, the playground and hitting their head on the ground and the head.

26 "Harward, Sonya" (2406394368)
00:24:24.139 --> 00:24:42.149
That impact attenuation, basically refers to that child not being injured if their head does impact the surface if they fall. Okay. Thank you. You're welcome. This recalls a roll call or.

27 "Harward, Sonya" (2406394368)
00:24:42.149 --> 00:24:57.299
What does show up? Yes, that's all the words I was looking for. All in favor? Bye. Anybody opposed? And it moves. Thank you. All right, thank you very much. 1 s.

28 "Harward, Sonya" (2406394368)
00:25:21.599 --> 00:25:37.379

Item number three is a resolution, 01:40 two-25 urging the implementation of a urban forced master plan strategies actions to ensure global Metro government tree canopy is resilient, protected and sustainable.

29 "Harward, Sonya" (2406394368)

00:25:37.379 --> 00:25:57.379

We're looking for, the motion is to return and motion moves. All right, do we have a crew here today from trees Lovel and parks. The financial impacts.

30 "Harward, Sonya" (2406394368)

00:25:57.379 --> 00:26:02.909

Shipment has been released after a long waiting, and.

31 "Harward, Sonya" (2406394368)

00:26:02.909 --> 00:26:18.899

Would like to see if Parks would like to discuss it for a quick moment.

32 "Harward, Sonya" (2406394368)

00:26:18.899 --> 00:26:38.899

I will tag team this a bit, but Michelle King, I'm Executive Director of Louisville Parks and Recreation, and I have with me here missu Dezura Lu, who is the assistant director of Urban Forestry at Louisville Parks and Recreation. I'll speak to this briefly and leave the details.

33 "Harward, Sonya" (2406394368)

00:26:38.899 --> 00:26:58.899

Good question to Missoudi, but we were asked to provide a financial impact assessment for the implementation of the urban forestry master plan. The urban forestry master plan was a joint project between Louisville Parks and recreation.

34 "Harward, Sonya" (2406394368)

00:26:58.899 --> 00:27:18.899

Urban forestry division and trees Louisville, and it created a document that included ten strategies with 33 different actions amongst them. Many of those were not specific actions for blueville Metro government to implement, so in this request we.

35 "Harward, Sonya" (2406394368)

00:27:18.899 --> 00:27:38.899

We took a look at, I believe we have seven of those actions that would directly require global metro government investment to undertake. And so that is what we included and then provided that to the Office of internal audit for their review and that is the memo that you all have been.

36 "Harward, Sonya" (2406394368)

00:27:38.899 --> 00:27:40.049

Provided.

37 "Harward, Sonya" (2406394368)

00:27:40.049 --> 00:28:00.049

We're happy to answer any questions that we can today or in future discussions. Thank you. Just some initial questions because I think

everybody, including treeese's lawful and and us as members have to digest this and and what we should have, you know, my estimation is a specific hearing on this. But.

38 "Harward, Sonya" (2406394368)

00:28:00.049 --> 00:28:14.849

But I just want to put a few questions out there that you can absolutely answer after the fact, but just you know or or you know after this meeting and just bring to that discussion. I would like a little bit of a more detailed breakdown of.

39 "Harward, Sonya" (2406394368)

00:28:14.849 --> 00:28:33.119

The one time costs, so the so you have five right now just for the public and this is all online, it says 5.4 million in initial equipment costs, Seems like a lot to me, but I'm not educated on this.

40 "Harward, Sonya" (2406394368)

00:28:33.119 --> 00:28:49.439

7.8 million in reoccurring annual costs, which assumes that we already have, as you've estimated 2.1 million in existing reoccurring costs that would just be baked into this. So, so in reality it's nine point.

41 "Harward, Sonya" (2406394368)

00:28:49.439 --> 00:29:09.439

Am I doing this right? 9.9 million, but 2.1 is already in the budget, 7.8 would be new reoccurring costs, right? So really wanna, we're gonna wanna understand that with some level of detail. I see some of what is, is in this report, but you know it'd be great.

42 "Harward, Sonya" (2406394368)

00:29:09.439 --> 00:29:15.329

And if we could summarize this in a, in a way that's digestible during a meeting, right?

43 "Harward, Sonya" (2406394368)

00:29:15.329 --> 00:29:34.229

And I'm also interested in, what I'll just call alternative ideas, right? Like, I I don't wanna make this, if, if this is all or nothing, somebody tell me it's all or nothing, right? But a lot of times with policy.

44 "Harward, Sonya" (2406394368)

00:29:34.229 --> 00:29:53.369

Okay, we can't do all of this, but is there something else we can do that moves the ball down the court, helps achieve some of the objectives, and maybe as a \$7.8 million in in new reoccurring spending right out of the gate, right? So I would ask the department to think about, ok, if we couldn't do all of this.

45 "Harward, Sonya" (2406394368)

00:29:53.369 --> 00:30:08.399

So, thank you, mr. Chair. And I can address a maybe a general response and then.

46 "Harward, Sonya" (2406394368)

00:30:08.399 --> 00:30:27.629

With the promise to come back with that more detailed walkthrough of what has been prepared for this. I I'd say that if you asked ten different urban forestry divisions how to implement this plan, you'd have ten different answers. So there are a lot of.

47 "Harward, Sonya" (2406394368)

00:30:27.629 --> 00:30:47.629

Places that there are options in this. This is what we felt like was a best practice approach based on our current, operations and what it would take to grow those current operations to cover citywide. The majority of the costs that you see here by far are involved with the implementation.

48 "Harward, Sonya" (2406394368)

00:30:47.629 --> 00:31:07.629

Of action 1.3, which is metro government takes over full care and management of street trees. So this represents what it would take to grow the current urban forestry division which takes care of parks and parkway trees and has a division over street tree inspection.

49 "Harward, Sonya" (2406394368)

00:31:07.629 --> 00:31:27.629

And we do quite a bit of maintenance and planting there that is covered by a grant, the louisville Equitable Forestry initiative grant, as well as additional planting projects, but maintenance of street trees is currently by earn ordinance the responsibility of the adjacent property owner. So to switch.

50 "Harward, Sonya" (2406394368)

00:31:27.629 --> 00:31:36.209

Push that would require a great deal of investment in our urban forestry department. So that is the majority of that cost.

51 "Harward, Sonya" (2406394368)

00:31:36.209 --> 00:31:52.709

Assistant Director. Just to give you detailed information of that general cost, you have an attachment Excel sheet.

52 "Harward, Sonya" (2406394368)

00:31:52.709 --> 00:32:12.709

In that email, if you please just like look at that 1.3 tab, it does definitely show each detail for each combination of the program and divisions, personnel and equipment. So we really tried hard to put every single item.

53 "Harward, Sonya" (2406394368)

00:32:12.709 --> 00:32:30.299

Specifically there, but if you still have additional questions, we're happy to provide further details. That's one of my best. I have a few questions. So.

54 "Harward, Sonya" (2406394368)

00:32:30.299 --> 00:32:47.009

Kind of going off of what councilman Piagentini, so the estimated total cost is 13.41 million with reoccurring cost of 7.82 initial equipment costs 5.44.

55 "Harward, Sonya" (2406394368)

00:32:47.009 --> 00:33:07.009

That also includes another additional 2.1 million and then we're looking at adding staffing. Is that in that cost, that staffing that you're asking to add? Is that part of those numbers? Yes, that would be part of those. Staff would be included in a recurring cost, those.

56 "Harward, Sonya" (2406394368)

00:33:07.009 --> 00:33:09.899

Initial costs are.

57 "Harward, Sonya" (2406394368)

00:33:09.899 --> 00:33:27.809

For the most part going to be the equipment needed for a full fledged all at if you looked at it all at once, so one of the options that councilman Piagentine might be interested in would, what would it look like to see a phased growth of the urban forestry division if.

58 "Harward, Sonya" (2406394368)

00:33:27.809 --> 00:33:43.889

That change in responsibility for street trees were to come about them, ok. Just gonna be honest, we cannot maintain what we have now, whether it's street trees, park trees, golf trees.

59 "Harward, Sonya" (2406394368)

00:33:43.889 --> 00:34:03.889

How is this gonna be sustainable? And I'm gonna just use something in my district as a example. The golf course at Sun Valley and Sun Valley Park has a lot of forestry that needs to be done and a lot of forestry that's been waiting to be done. I just don't see how this is sustainable. Can someone speak on.

60 "Harward, Sonya" (2406394368)

00:34:03.889 --> 00:34:05.189

How they expect.

61 "Harward, Sonya" (2406394368)

00:34:05.189 --> 00:34:25.189

This to be sustainable if we can't maintain what we already have. I will say that is what the plan, why it requires so much growth and equipment and staff would be to have to grow to the level to meet the need that would be presented in this case. So with that is we we've prepared an estimate of.

62 "Harward, Sonya" (2406394368)

00:34:25.189 --> 00:34:26.759

What that would take.

63 "Harward, Sonya" (2406394368)

00:34:26.759 --> 00:34:46.759

That is the original staffing you're asking for be to take on the new load? The new load? No, the old load we can't maintain with the staffing we have now that that's accurate. I mean, we, we do, I think a great job of maintaining trees now.

64 "Harward, Sonya" (2406394368)

00:34:46.759 --> 00:34:56.339

Well in parks and we talked to our golf courses about being using the resources available for those golf courses, but.

65 "Harward, Sonya" (2406394368)

00:34:56.339 --> 00:35:15.299

No, to grow the requirement for us to take on care and management of all street trees that could not happen with current resources. So that was the recommendation in the plan, so that is what we prepared this response in accordance with.

66 "Harward, Sonya" (2406394368)

00:35:15.299 --> 00:35:35.299

Okay, so if I can, please, the proposed plan is including additional personnel to the current forestry team that is responsible for maintenance of park streetspoken. You know, well that's kind of what I was asking because like the new staffing you are asking for.

67 "Harward, Sonya" (2406394368)

00:35:35.299 --> 00:35:55.299

Will be to take on this but we have now can't even maintain what we have currently in deferred maintenance and forestry. So that's why I was kind of the new staffing is gonna be just for this, which is a lot. Current number of staff in forestry who's responsible for maintaining parks and park reach.

68 "Harward, Sonya" (2406394368)

00:35:55.299 --> 00:36:06.869

With eleven. So we are also requesting five additional positions to be added to Forestry team to increase our.

69 "Harward, Sonya" (2406394368)

00:36:06.869 --> 00:36:23.219

You know, workforce to meet with the workload that is currently out there. Yes, we are aware that we do have a lot of backlog, but, we are trying to do our best with the resources we have. So to further.

70 "Harward, Sonya" (2406394368)

00:36:23.219 --> 00:36:43.219

Just clarify that if you look at that tab 1.3 in that spreadsheet, that does include current staffing and that does also include our division that takes care of parks parkway trees, and, the landscape areas that are under urban forestry's responsibility as well.

71 "Harward, Sonya" (2406394368)

00:36:43.219 --> 00:36:52.169

Well, and then adds in what would be needed to fully take care of those plus the addition of street tree maintenance and responsibility.

72 "Harward, Sonya" (2406394368)

00:36:52.169 --> 00:37:08.339

Okay. Yeah, I haven't got the we just got that this week and it's a lot to change it is a lot through so ok thank you for that council Woman is in the queue, but I'm gonna ask one question.

73 "Harward, Sonya" (2406394368)

00:37:08.339 --> 00:37:26.729

How far behind are we on deferred maintenance dollar wise? For trees or for because that is a different I'm just trying to say you have a good number off the top of your head for parks amenity deferred maintenance?

74 "Harward, Sonya" (2406394368)

00:37:26.729 --> 00:37:45.029

179000000. Thank you. Councilwoman Ruby. Okay, thank you very much and thank you to Parks and to Treese Luvil for putting this, doing this study and getting this information before us. There is a lot of money.

75 "Harward, Sonya" (2406394368)

00:37:45.029 --> 00:38:05.029

Understood and I don't see it happening in one fell swoop. So if we do this as a phased approach, what would you want to focus on 1st? I think and we can give you a top of the, our head response, but I do.

76 "Harward, Sonya" (2406394368)

00:38:05.029 --> 00:38:12.840

Think that that would be the kind of information that would be helpful in a second discussion as councilman Piagentini suggested.

77 "Harward, Sonya" (2406394368)

00:38:12.840 --> 00:38:32.840

But like Michelle mentioned at the beginning, so you can have 100 different responses to this request if you ask several different people. So this proposal was based on our experience, and institutional knowledge. It is not a perfect and I.

78 "Harward, Sonya" (2406394368)

00:38:32.840 --> 00:38:52.350

Ideal approach, but it's not bare minimum either. So we can absolutely take different approaches. So to start conversation about how, I think the 1st item is the ordinance and possible change in ordinance as we talk about.

79 "Harward, Sonya" (2406394368)

00:38:52.350 --> 00:39:10.020

Public trees to be taken care of by taking care of by metro government. So if that is the case, we can absolutely start with prioritizing the work, starting instead of like three different regions and, total of.

80 "Harward, Sonya" (2406394368)

00:39:10.020 --> 00:39:30.020

Six teams making 30 additional staff for street tree program. We can consider forming one crew to start with high priority and high risk trees

along streets if we were to take over the responsible of maintenance and grow for.

81 "Harward, Sonya" (2406394368)

00:39:30.020 --> 00:39:41.490

From there, the numbers would be absolutely much lower, but I'm a little bit worried about conflicting issues as.

82 "Harward, Sonya" (2406394368)

00:39:41.490 --> 00:40:00.300

Partially maintaining those trees, how we are gonna prioritize it, how we are gonna respond those calls. That would be my concern. If it's up to urban forestry expertise, prioritizing prioritizing those high risk trees, one crew can start working on those.

83 "Harward, Sonya" (2406394368)

00:40:00.300 --> 00:40:20.300

That would be my approach. Okay, thank you very much. As far as the, was it 30 recommendations that were on there? Where are we on the ones that are basically low hanging fruit, low cost ones? I understand quite a few of those we're already working on.

84 "Harward, Sonya" (2406394368)

00:40:22.080 --> 00:40:40.410

I, I think we can speak to the ones that are underway within our department and then I would also welcome input from Treese Louisville for community based recommendations, but do you want to speak to the street T inventory? Sure. One of the.

85 "Harward, Sonya" (2406394368)

00:40:40.410 --> 00:41:00.410

Items included in this plan is conducting a street tree inventory actually all parks and street tree inventory. We have already started that inventory and then we are almost like 70 % done about to finish this winter, so it is all already, you know, working in progress.

86 "Harward, Sonya" (2406394368)

00:41:00.410 --> 00:41:15.240

So, there are some low hanging, items outside of metro government and I would like Cindy to speak about those items that she is collecting information on what the process is about those.

87 "Harward, Sonya" (2406394368)

00:41:21.240 --> 00:41:40.710

Hello everyone. Happy to be here. Thanks for having me. I have actually the I'm sorry. Cynthia H Sullivan. Nobody knows me by that name, right? I'm Cindy Sullivan, I am the president and CEO of Treese Louisville.

88 "Harward, Sonya" (2406394368)

00:41:40.710 --> 00:41:57.570

And again, happy to have you. Happy to be here. So I have these. This is a one page document that shows the findings from the Urban Force Master plan as well as the strategies. Thank you very much.

89 "Harward, Sonya" (2406394368)

00:41:57.570 --> 00:42:16.800

Crystal or I'm sorry, Council woman Bast. On on the back side, the highlighted items are 18 different items that are already in progress out of the 33. So we are well over halfway through.

90 "Harward, Sonya" (2406394368)

00:42:16.800 --> 00:42:36.800

The implementation of the urban Force master plan, and these 18 items are being completed or being worked on by various organizations, soil and water conservation district. Thank you very much for fully funding them, is working on.

91 "Harward, Sonya" (2406394368)

00:42:36.800 --> 00:42:38.400

Invasive species.

92 "Harward, Sonya" (2406394368)

00:42:38.400 --> 00:42:58.400

Trees Louisville is working on a financial assistance program for tree care for on private property and, and a few other items. Our website, the website for the Urban force master plan is Louisville tree plan.org, and we are.

93 "Harward, Sonya" (2406394368)

00:42:58.400 --> 00:43:00.690

Are inputting right now.

94 "Harward, Sonya" (2406394368)

00:43:00.690 --> 00:43:18.810

A progress report on who is doing what and and how far everything is going. So this is not just about Louieval Metro, this is about our entire community. And in my mind, it seems that.

95 "Harward, Sonya" (2406394368)

00:43:18.810 --> 00:43:34.920

For you guys to advance this resolution to continue to do this work would, is sort of a an easy decision. We don't necessarily need to spend.

96 "Harward, Sonya" (2406394368)

00:43:34.920 --> 00:43:54.920

Millions of dollars right away on street trees, but we need very much to advance this plan and the implementation. Because we said from the beginning that this was not a plan that was gonna sit on a shelf. This is a plan that is gonna be implemented.

97 "Harward, Sonya" (2406394368)

00:43:55.440 --> 00:44:15.440

By many different organizations. Yeah, exactly why I think we need to come back. I would encourage the chair. We'll schedule a meet a specific meeting where this is what we'll talk about. This will take up most.

98 "Harward, Sonya" (2406394368)

00:44:15.440 --> 00:44:35.440

The meeting. We'll give Cindy had NO idea your whole name was all that Cynthia H, right? Yeah Sullivan. So, but also the department, right? And, and that was exactly, and actually Jennifer councilman Chapel and I were sidebarring about that exact thing.

99 "Harward, Sonya" (2406394368)

00:44:35.440 --> 00:44:43.800

And she was updating me on it. So I think the other thing that was dawning on me as we were talking about this is this is a resolution.

100 "Harward, Sonya" (2406394368)

00:44:43.800 --> 00:45:03.800

Maybe we can improve the verbiage of it or clarify exactly what you're talking about. It is not an ordinance that says like if we don't spend this or whatever, it's not a budget ordinance. So I, I think, but at the same time, I do want to be fair to everyone. We have done ordinance, excuse me, resolutions before saying hey we wanna do.

101 "Harward, Sonya" (2406394368)

00:45:03.800 --> 00:45:23.800

Do this, but we didn't have any thought behind it, planned behind it any concept where it was going. And frankly, we're nowhere near doing half of them. So I I I I don't want to do that again, right? But yeah, I think I'm I'm gonna ask the table it so we can schedule this meeting, really talk about it because I agree I think if we could get more clarity, right, about what we're really talking.

102 "Harward, Sonya" (2406394368)

00:45:23.800 --> 00:45:43.800

About here because it's we're not talking about dropping \$7 million on the table and saying that's it, right? And that's the whole plan there's this is much more nuanced, there's much more information to put down and maybe that ends up with, you know, clarifying the language and the resolution and moving forward, right? So cause I agree that, that, that.

103 "Harward, Sonya" (2406394368)

00:45:43.800 --> 00:46:03.800

What you said was very helpful, but I think we need everybody to come with, hey, this is what we're really saying, right? And I think that would be helpful cause I don't think what we're saying is just, hey, here's a financial impact statement, go past this thing, right? I think oh yeah NO absolutely not. Because we're already working on so many things. Exactly. Exactly.

104 "Harward, Sonya" (2406394368)

00:46:03.800 --> 00:46:12.450

Table mr. chair. They're tabled. Thank you. Nope sorry we need a voice vote.

105 "Harward, Sonya" (2406394368)

00:46:12.450 --> 00:46:32.450

All in favor say I? Posed and looks like it passes them alright we are table. Thank you. And I will get with everybody involved to work on getting a, a time. And with that being said, that.

106 "Harward, Sonya" (2406394368)

00:46:32.450 --> 00:46:38.880

Adjourns our meeting of the park sustainability committee meeting today.
Thank you all for joining. Have a good day.

107 "Harward, Sonya" (2406394368)

00:49:35.370 --> 00:49:50.580

Oh, and you slept it at Nice to meet you. Yeah, thank you guys very much
for a lot of.

108 "Harward, Sonya" (2406394368)

00:50:47.010 --> 00:50:59.360

And hear the voice.
