Madam clerk are there any addresses to counsel? Yes, sir there is there are let me remind those addressing the council to please refrain from using any profanity or making derogatory statements towards council members. Madame clerk please call them forward.

Jared random how ya doing today?

I'm a firm believer, I wasn't the teller Barry neighborhood. I'm a firm believer. If you don't give kids some, that positive to do.

Uh, to find some negative do, especially if you got working parents and uninvolved parents or whatever the issue is 1 of the, there's 3 things I'm trying to pitch is ideas. I'm just brainstorm.

I'm not saying they're great ideas and just.

Trying for city park rangers.

Um, I was talking to 1 of the Glens today.

Uh, if you see them on the news, uh, on Facebook, uh, if you ever see him on the news, a, a, the, the, the husband always has the head on the Yankees head on uh, I always remember that, because my dad was a Yankees fan. Um, June 720. hundred and twenty

221 there was 174 rounds fired at kids in a local park.

Um, in my neighborhood, there was a, a guy shot walking his dog not too long ago. Uh, this year, uh, in our park uh, just remember bullets don't know. No color.

I mean, I went to the the thing at, um.

Where they, um, had a remembrance thing, and there was white families and black families there, uh, midnight basketball is a program that was pitched a long time ago.

Uh, give kids something to do at that hour, or, like, the community center by my house closes at 80.

P M I got in contact with Cory manage goat this week is uncle was a early ago on Facebook and he liked the idea to maybe somebody else could reach out to him and, uh, look at that. that

That's not 24, 7 community center, give some kids from the positive do at that hour, especially in the summer when they're out of school.

Uh, maybe it could just be a little bit later. Maybe 10 0 PM is at 8. P. M. uh, public transportation. Uh, just because you, uh, we can offer all the stuff and in the city of.

But if you're in 1 neighborhood in the kids, or somebody can't get to it.

Then it's it's kind of point was, um.

Like, it takes, like, 2 or 3 buses to get to g from my house. So there's a lot of people with disabilities and people that cars.

Would like to have jobs and they can't. It's just really hard. It takes an hour and a half to get to g from my house. Um.

Just, uh, also the rep, I hope to meet you all soon at the meeting, we're having this Tuesday.

Uh, I was talking to David James about this this week.

Maybe you got it fixed maybe didn't the mayor side, but we have no computers at the South, local community center. If you want kids to work on homework, or fill out a resume or somebody poor in the community filled out a resume they can't do that.

Obviously, without computers and printers, that should be a basic thing, I think, and I hope you all can work on that. 1st please, thank you. All for your time.

Thank you Mr. president that concludes the addresses to council. Mm. Hmm.

Thank you Mr. President this is on old business so that we can add some technical changes from the greater level ink a local chamber of commerce assistant county attorney. Katherine matters. She'll be here to explain those changes.

Sorry, it's matter assistant county attorney Catherine.

The changes were pretty, not a whole lot. It's just a lot of clean up language. Mostly technical. There were 2000.

CIP changes 1 was to add a claim that an employee can voluntarily seek settlement agreement under if they have a right to.

Or if they are making a claim, and the 2nd change was clarifying that reporting only applies to employees who live in local Metro. metro

Again, motion by councilman, secondary counsel and sign, uh, counsel mcraven. Can you speak to this item?

Thank you, Mr. President this resolution updates the employee handbook to include the social media policy in the past metro council has operated on Metro.

It's social media policy, which did not take into account the unique ways, Metro council members, their staff and Metro Council staff as a whole use, and manage their social media accounts.

This policy will be written specifically for metro council and provides guidance for the proper use of social media accounts.

To ensure that Metro council social media accounts are compliant with state laws on data retention and our ethics code the policy also addresses the reality that many metro council accounts

are forms for the public and for the public's use to engage with us and others and provides 1st Amendment protections for both metro council users and members of the public we ask for your support.

Is there any further discussion on this item? Thank you.

Councilman Arthur, thank you so much.

I've been speaking with the administration this evening, and we have some misalignment 3 of the 4 items that are being changed are okay to move forward, but 1 of those descriptions does not match the intentions.

So our motion to strike section 2, making section 3, the new section, 2, and striking L. A. T. dash 0061. so we can work with the mayor on what we're actually spending that on. spending that on

It probably moved in 2nd, any discussion on the proposed amendment.

Kinds of like all this clarification. So it doesn't.

I'm not sure if I understand what counsel authors.

What the amendment was? Yeah. W. W. yeah, I know that.

He's asking to remove it, but it doesn't I don't know what he means by. It doesn't.

If the intentions of America would you like to clarify.

Absolutely, so when the director of the level accelerator team can celebrate, came to the budget committee last week he shared it with us and it's written in the ordinance that it does 4 things.

1, it extends the services for the safe outdoor space beyond that 1 year.

2, we take some money and we move it around to make sure that we purchase that community care space for more shelters.

3 we extend the time for to spend their reform money and 4, it helps make sure that our public safety bonuses.

Our legal with all of the guidelines.

But earlier today, the mayor announce some new investments in those investments, included a wellness center.

The new headquarters, public safety bonuses, and something about narcotics tip line as well.

Those investments were said to be in the press release, and I confirm with the mayor to be paid for, with American rescue plan money the project description.

Does not mention those investments they mentioned, making sure that we pay for reforms from the hill report.

And recommendation from the Department of justice, the Department of justice has not given us recommendations yet. And the hillier Heintz report does not outline what he announced today.

In fact, has a dashboard for their reforms and that dashboard does not have what he announced today.

So that's an issue and I want to make sure if we're going to spend the money on that we actually put it in the ordinance. We talk with the

administration to have an understanding of what we're putting the money into because right now, if we pass this.

We're saying we're going to spend it on reforms, but we're not saying what those reforms aren't necessarily. And I would argue the reforms that were announced today are not reforms whatsoever. Those are capital projects that are not in any recommendation that we received.

Thank you Michael. Did I answer your question? Didn't need constant. Did you have a comment? Yes, I do. Thank you. Mr. President. I, I'm supporting this motion. Not because I don't support some of the things that the mayor announced today.

For example, he announced.

A completed PD headquarters I think that's critical.

Uh, I, but I also agree with councilman Arthur that we need to be super clear.

About how this is being done and I will say, I'm not, I want to be super clear, not accusing this mayor with this, but we have had a problem with prior administrations,

making announcements or statements on spending dollars, without having really transparently come through a committee allowed us to digest it, debate it and and properly pass it.

And, um, I understand that's not what he's attempting to do.

And I'm not saying that's what he's trying to do, but my understanding is, there's nothing that's going to be hurt. We're passing the rest of the material that's in here.

It's just this 1 line, and frankly they can have a new filing in, you know, I think it's 10 days from today. 1st, reading in 2 weeks later it'll be approved. And if it's all in the up and up, I think it'll fly through.

And and again, I, I don't necessarily object with some of the mayor's priorities enough to fix. Some of them are terrific, but we should be totally transparent and the budget.

Ordinances should align to that. So I think it's a reasonable thing just to take the 1 out. Have the administration work with the budget chair a chair black? Well, the vice chair, uh, Kramer and and the rest of counsel to make sure that's done properly. So that that's why I'm supporting this amendment.

Thank you.

Any further discussion okay. For some right there we go. Okay. Sorry. Counsel them with training.

Thank you misunderstanding. May I ask councilman Arthur a question?

From Arthur, you can direct the question. Yes.

Councilman Arthur in your conversations today with the mayor's office, did they indicate that there is enough money to later come back for funding to get those items funded? Or did they suggested.

There would be another pathway for payment of those things he announced.

Well, that's kind of the issue, you know, we put aside 17.5Million for those reforms and then announcement today talked about 14Million dollars.

For this renovation, so 14Million dollars for the renovation a 1Million some change for the wellness center.

That leaves us with very little for the reforms and we have no idea what the Department of justice is going to say to us as far as how much this thing will cost. We put that money aside.

For that, just to save it for when that report and that, you know, decree comes down. So if we want to take some of this money and use it for what he announced today, that's fine. But that's not what the ordinance currently says.

And, like council and said it's important that we're clear, and we're transparent with the public about what we spend their money on.

Thank you, that's why I asked the question, because we can't assume that next week, if they put in a request that that should.

Automatically be approved, although we all agree that what he would like to do is so so important, but we have to be mindful of where we said those dollars should go. So, I'm in agreement with that. Thank you.

And counseling BLACKWELL has had a question since Arthur has been in discussions with the mayor's office over this 1. so it seems to me from my perspective, it seems to me, it would.

Make more sense, and be more efficient just to send the whole thing back. Because if you, if you move forward 3 out of the 4, and they send the other 1 back, and they have to create another ordinance, and then we have to have a reading for that, and then we have to.

So, you know, we're stretching that timeline out. It seems to be, unless there's a reason not to, it seems to me to be more efficient, just to send it back but.

Councilman Arthur, so, in my conversation, uh, of course, they want to move everything forward. He made that announcement earlier today.

But the safe outdoor space, the shelter space.

The public safety bonuses, I would think we would want to move those forward as soon as possible. And those are things that we are already aware of, that we've okayed in the committee.

That the administration is supportive of it's really just this piece that I'm trying to take out that we need to have more discussion about because the announcement today does not line up with the ordinance.

And furthermore, the ordinance that we did approve, it does not line up with what we assume the attentions to be based on those reports. I even talk with the former budget chairman.

Uh, Bill calendar, just to see if I missed something when we approved that money and we passed that money and to his understanding.

The announcement that came out today was never a part of the intentions of that 17.5Million if we change our minds. Okay. But let's at least talk about it and give the public some time to understand what we're spending their money on.

But the other 3 pieces we've already okay, those are outlined. Pretty clearly. This last piece is just what's missing from the ordinance.

Okay, with me, I don't feel strong any other any other comments on the amendment.

So, ordinarily we oh.

Oh, I'm sorry president Winkler. Um, I, I, I'm in support of the amendment as well. I think we need to get everything aligned, um, before we pass it all through.

I was actually in attendance today, uh, at the at the mayor's announcement, and I appreciate what he's doing and I'm supportive of what he's doing,

but I think it is important for for metro hall and city hall to be to make sure we're on the same page of how how we're spending.

In support of the amendment as well.

Now, seeing no 1 else queued in, ordinarily, this would be a voice vote. We do have a potential extension so I'm going to call for a roll call vote on the amendment.

So, we were voting on the amendment only Amanda click, please call those online counsel member. Arthur.

Yes, council member Fowler? Yes.

And counsel member ackrason yes.

Counseling Baker would you like to explain your extension? Please?

Thank you chair my parents church is in close proximity to the project and me not knowing what it's going to affect with their property values and.

Council and Franklin, thank you dot Greenway. Let me. Oh, what's his name? Greenway Thank you. Mr.

uh, this was left over from Cassie.

Council casting Armstrong, and I think they found it in December and nobody was there to work with it. So they gave it to my office and they were asking for 2000 dollars from district districts.

They have libraries and it was 2. two

Let's see 1815.

And so they were asking for 2000 dollars for all of those 25 and 15.

and so, in any 1, that's close to the zip code or 4 to 20 or to 18 for 223 4222and4 2 or 3 they're asking if you want to give funding towards this mental health program.

But the ones that I mentioned, they are wants to have libraries. the ones that i mentioned they are wants to have libraries

In their district, and they're asking for 2000 dollars from each 1 of those districts. And so far we got 2000 from 2 and 4 and I think 19 gave 1000.

And, uh, 14 gave 250.

So, if you have a library and you want to give 2002 towards this mental health program in your district are close to your district.

They are asking for funding, uh, councilman Arthur.

Piece I know in the budget committee, we were asking about the specific library locations. Did we ever find that out? Because we have Western in Maine.

But they only asked for funding for 2.

For 1825 and 8, I think.

I've got it written down on a piece of tissue so it's hard to see understood. I was just wondering if we knew which branch they were going to take the program to and district for.

They are going to do 7 districts. He said.

Sovereign libraries to downtown.

So, this was not my ordinance. This was.

Someone else's that was just given to me. Okay. Well, shout out to the love of free public library. The best in the world. I strongly encourage folks to support this. We could never have enough mental health resources. Thank you.

Thank you Calvin Benson.

I get 500 dollars to 2 and 4 to help out with the mental illness. Thanks. Thank you.

Just for clarity, is it 500 dollars each or 500 total.

Now, let's make it 500 for each. Okay. Thank you.

So, yes, a 1000 calcium bathroom.

Yeah, thank you. Mr. President Thank you. Uh, counsel Shanklin. Um, I'm just I'm happy to help contribute to this.

Um, I think I just want to understand a little bit more about what it is. I didn't see this, um, request and advanced. So.

Um, I'll be happy to contribute to 2000 dollar request, um, in lieu of learning a little bit more about the program.

Again, I have no idea. This was just dumped on me after Cassie left. So I'm just.

I'm just a Messenger, so if you want to give 2000 dollars.

Library, you'll be glad to get it to you on. Thank you. Um.

With that being said, is there any way we can have.

Maybe table this and have some more discussion in regards to it to.

To clarify and then, um, get some clear context of.

Or it's all going, so we can get the funds properly associated.

I don't know if you're making a motion, but I think councilman flood has her hand up. So you may not want to move the motion but.

Are you count count customer slot? I assuming you're not making a motion.

And it's going to be at the Southwest regional library, the North East Regional library, the main library, the newborn library, the Western library, and the bone air library. Excuse me on air library those are the.

Places that are going to have this, um.

Okay, council and Parker. I'm sorry can I just let you know there are 750 dollars is what remains.

Okay, so, you know, you got a lot of people behind you. So, you know.

750 dollars all this remaining councilman Parker yes. Counsel and Parker. We'll give 500. I'd give more, but maybe helping them out with security cameras.

Yes, thank you. Mr President. I'm going to do just like, I did in committee.

I will turn this over to my vice chair councilman Scott Reed,

because this a piece of the property that's involved in the next 2 cases is on a piece is listed as owned by the Roman Catholic bishop of Louisville and since I'm on the board for Catholic Charities who is led

by the archbishop of Louisville I am going to leave the room and not participate whatsoever.

So, I will be signing down and turn it over to councilman Scott Reed. Thank you chairman. We'll come get you.

In a couple of ordinances so, um.

Councilman Reed, thank you. Mr. President yes. This a sales through committee, uh, with the unanimous vote. And I believe this is in councilman.

District, and I saw him up there just a 2nd ago if you would like to comment.

I want to say that I'm supportive of the audience.

Thank you. Is there any further comments seeing none? This is an ordinance. Oh, I'm sorry. Comes on Blackboard. Thank you. I, I'm just I'm trying to look and see what part of, um.

What part of this is owned by the.

Our status is and so was her extension now, she just walked out though.

So you might know it was her extension because it's being purchased by Catholic charities, or because I think it's because she's on the board was her specific concern, but Catholic Charities isn't purchasing though.

It's just they are still, our status is selling part of this.

Is that correct? Yeah, counseling angle. The main reason I step in here is I'm a member of Saint Gabriel church in this. This was St Gabriel property so it's being sold by the archdiocese, but I think.

In the interest of no conflict of interest I think she's.

Abstain as part of the testing as part of the old St. Gabriel's I mean, part of us piece that I think overall that's correct. Or at least part of it is. It's correct. Okay. In that case, I probably should have seen as well.

Seeing no other discussion, this is an ordinance calling for a roll call vote. Madame clerk.

Council member Arthur yes, that's a member. A.

In council member ackrason yes.

I'm sorry counsel like, what you want to explain your extension yes. Abstaining because I'm an employee of the archdiocese and so I wanted to abstain.

Have nothing to do with this project, but still have an abundance of caution.
