It would be possible with Council approval to repair the area in most disrepair sooner. I'm looping Steve Kurowsky in to provide an estimate. The quantities needed would be:

- 1 Mobilization charge
- 535 square yards of milling
- 54 tons of surface asphalt

Good afternoon. I was reaching out to see about an area of concern we are currently facing on Old Millers Ln @ Millers Ln. There is about a 150ft section of roadway that needs milled and paved. Due to the size, it is outside of what the Roads department can currently handle due to weather and the soon pothole blitz. I didn't know if this could be project for a contractor or if this is on any future paving plans. Any help is appreciated. Attached are street view maps of the condition. I also can meet someone on site to discuss also.
