RE: Support for Revised Detailed District Development Plan
9718 Dixie Highway – Proposed Chick-fil-A

To Whom It May Concern,

I am writing to express my support for the developer's application for a revised detailed district development plan for the proposed Chick-fil-A restaurant at 9718 Dixie Highway in Louisville, Kentucky.

I believe this project will be a valuable amenity for the surrounding community and will provide a convenient dining option for residents, employees, and visitors in the area. Chick-fil-A has a strong reputation for quality service and well-managed locations, and I believe this development will be a positive addition to the Dixie Highway corridor.

I also support the increased street connectivity proposed in the applicant's site plan. The additional connections will allow for more convenient and safer ingress and egress to the Chick-fil-A site as well as improved access for surrounding neighborhoods. Enhancing connectivity within the area will help improve traffic circulation and provide better access throughout the corridor.

For these reasons, I respectfully encourage the Planning Commission to approve the revised detailed district development plan for the proposed Chick-fil-A development.

Thank you for your consideration.

Sincerely,

Carol Albright

RE: Support for Revised Detailed District Development Plan
9718 Dixie Highway – Proposed Chick-fil-A

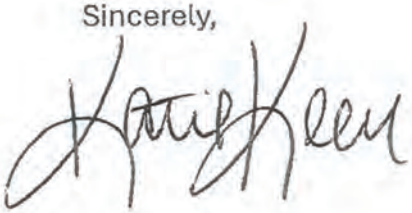
Dear Members of the Planning Commission,

I am writing as a neighbor to support the proposed Chick-fil-A at 9718 Dixie Highway and the developer's application for a revised detailed district development plan.

Too often, this part of Louisville gets overlooked when it comes to new investment and quality restaurants. People in this area deserve the same kind of choices and amenities that other parts of town seem to get more easily. I believe a Chick-fil-A at this location would be a positive addition for the community and something many residents would be glad to have nearby.

This project feels like the kind of investment our area needs more of, and I hope it receives approval.

Sincerely,



March 19, 2026

RE: Support for Revised Detailed District Development Plan
9718 Dixie Highway – Proposed Chick-fil-A

To whom it may concern,

I am a nearby resident, and I wanted to write in support of the proposed Chick-fil-A development at 9718 Dixie Highway.

I think this restaurant would be a real benefit to this area. It would give people in the neighborhood another good dining option and would be a nice addition along Dixie Highway. I support the developer's application for the revised detailed district development plan and hope the Planning Commission will approve it.

Sincerely,

Kathy Watkins

RE: Support for Revised Detailed District Development Plan
9718 Dixie Highway – Proposed Chick-fil-A

Planning Commission Members,

I am writing as a resident of the area to support the proposed Chick-fil-A at 9718 Dixie Highway and the developer's application for a revised detailed district development plan.

I support this project because I believe it would bring positive economic activity and jobs to this part of the community. It is better to see a site developed with a well-known business than to continue having properties in the area sit vacant or underused. A project like this can help improve the corridor, create employment opportunities, and bring new energy to a location that has not seen enough quality investment.

For those reasons, I support the application and hope it will be approved.

Sincerely,

Shannon Sexton

9718 Dixie Highway – Proposed Chick-fil-A

To Whom It May Concern,

I am writing to express my support for the developer's application for a revised detailed district development plan for the proposed Chick-fil-A restaurant at 9718 Dixie Highway in Louisville, Kentucky.

I believe this project will be a valuable amenity for the surrounding community and will provide a convenient dining option for residents, employees, and visitors in the area. Chick-fil-A has a strong reputation for quality service and well-managed locations, and I believe this development will be a positive addition to the Dixie Highway corridor.

I also support the increased street connectivity proposed in the applicant's site plan. The additional connections will allow for more convenient and safer ingress and egress to the Chick-fil-A site as well as improved access for surrounding neighborhoods. Enhancing connectivity within the area will help improve traffic circulation and provide better access throughout the corridor.

For these reasons, I respectfully encourage the Planning Commission to approve the revised detailed district development plan for the proposed Chick-fil-A development.

Thank you for your consideration.

Sincerely,

Cierra Watkins
