TECHNICAL REVIEW

Requirements for attached signs in Suburban Workplace Form District

Attached Sign in Suburban Workplace Form District	Permitted	Proposed
Total Sign Area	Maximum 750 sq. ft.	1092 sq. ft.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR SIGN VARIANCE

- (a) The variance will not adversely affect the public health, safety, and welfare, will not alter the essential character of the general vicinity, and will not cause a hazard or a nuisance to the public, nor will it allow an unreasonable circumvention of the requirements of the zoning regulations.

STAFF: The requested variance will not adversely affect the public health, safety and welfare and will not cause a hazard or a nuisance to the public, nor will it allow an unreasonable circumvention of the requirements of the zoning regulations as the sign will not impact the safe movement of pedestrians and vehicles. The proposed sign area is compatible with the scale of the building and subject site. The façade the sign will be attached to is 71,560 sq. ft.

- (b) The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or in the same zone.

STAFF: The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or in the same zone as the subject site is large as is the façade the sign will be attached to.

- (c) The strict application of the provisions of the regulation would deprive the applicant of reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: Strict application of the regulations would create an unnecessary hardship on the applicant as the proposed sign is in character with the existing development on the site and with the surrounding Industrial uses.

- (d) The circumstances are not the result of actions taken by the applicant subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are not the result of actions of the applicant taken subsequent to the adoption of the zoning regulations as work has not begun on the proposed sign for which the variance is being requested.

REQUIRED ACTIONS:

- **APPROVE** or **DENY** the **Variance** of Land Development Code (LDC), Section 8.3.3, Table 8.3.2 to allow a freestanding sign to exceed the maximum area permitted.
