

Carole Yocum AIA, LEED AP, KYCID

Principal-in-Charge | KNBA

Carole brings over 30 years of experience to KNBA. She has strong experience leading design teams on education and civic projects, including new construction, adaptive re-use and restoration.

She believes in the fundamental power of research, sketches, and studied observation for good decision-making and translating clients' needs into creative and flexible designs. Carole is a co-founder of Kentucky Women-in-Architecture, a non-profit mentoring and networking support group, designed to increase the viability and visibility of women in the field of architecture.

Carole is our "go-to" partner and team leader for education and existing building projects at KNBA. She has built her career restoring, repairing, expanding and adapting all types of 20th century buildings. She loves the history and sustainable impact of these challenges.

Selected Experience

University of Louisville A New Vision of Health Campus – Renovation (Louisville, KY) – Project Manager for the renovation and addition to a historic 1911 downtown building for new offices and assembly functions. Innovative, sustainable systems and design focused on green building, wellness and biophilia will be represented in this 60,500 sf building. The spaces will demonstrate how built environments can work in unison to create a truly innovative and harmonious space, linking nature, health, and the community. The project team and owner are pursuing the highest levels of sustainability and wellness certification under the LEED and WELL Building Standard.

University of Kentucky Pence Hall (Lexington, KY) – Project Architect for this current renovation of 50,000 sf. Originally built in 1909 for the Physics Department, Pence Hall has served UK as a core central campus building for over 100 years, formerly to the College of Architecture. With the completion of the College of Design, this allows Pence Hall to be renovated and become the homebase for the College of Communication and information.

University of Kentucky College of Design (Lexington, KY) – Assistant Manager/Lead Architect for this current renovation of a 140,000 sf, 1917 tobacco warehouse for the new College of Design on the UK campus. For the first time, all programs will be united under one roof to ensure the opportunity for interdisciplinary collaboration across design and scholarly disciplines. The design focused on transforming the building into a collaborative teaching and making space for multiple design programs, with new modern signature elements, while also maintaining the original warehouse aesthetic. Carole led the programming efforts with the College, analyzing the existing building and coordinating the design with the national architect, as well as leading the construction documents creation. She has also just concluded leading the construction administration of this 18 month, \$49M project with Turner Construction.

HIGHER EDUCATION/SECONDARY/ELEMENTARY:

University of Louisville A New Vision of Health Campus – Renovation (Louisville, KY) – Project Manager for this complex adaptive reuse and renovation project to a historic 1911 downtown building for new offices and assembly functions. Innovative, sustainable systems and design focused on green building, wellness and biophilia will be represented in this 60,500 sf building. The spaces will demonstrate how built environments can work in unison to create a truly innovative and harmonious space, linking nature, health, and the community. The project team and owner are pursuing the highest levels of sustainability and wellness certification under the LEED and WELL Building Standard. The program includes research labs, offices, meeting spaces, and public spaces, creating a new campus for learning and interaction. This project is currently in phased design and construction with Whittenberg Construction. **[Year Started/Year Completed]**

University of Kentucky Pence Hall (Lexington, KY) – Project Architect for this current renovation of 50,000 sf. Originally built in 1909 for the Physics Department, Pence Hall has served UK as a core central campus building for over 100 years, formerly to the College of Architecture. With the completion of the College of Design, this allows Pence Hall to be renovated and become the homebase for the College of Communication and information. **[Started 2022/Under Construction]**

University of Kentucky College of Design (Lexington, KY) – Assistant Manager/Lead Architect for this current renovation of a 140,000 sf, 1917 tobacco warehouse for the new College of Design on the UK campus. For the first time, all programs will be united under one roof to ensure the opportunity for interdisciplinary collaboration across design and scholarly disciplines. The design focused on transforming the building into a collaborative teaching and making space for multiple design programs, with new modern signature elements, while also maintaining the original warehouse aesthetic. Carole led the programming efforts with the College, analyzing the existing building and coordinating the design with the national architect, as well as leading the construction documents creation. She has also just concluded leading the construction administration of this 18 month, \$49M project with Turner Construction. **[Started 2019/Completed 2024]**

Eastern Kentucky University White Hall Historic Site Restoration[#] (Richmond, KY) – Project Manager/ Project Architect for the repair of masonry and copper roof of the historic mansion and repairs to out-buildings due to storm damage. Damaged interior plaster and wood corbels were also repaired. **[Year Started/Completed 2024]**

Walden School – Master Plan and Phase 1: Library and Band Building Addition^{*} (Louisville, KY) – Project Architect for the design of a multi-phase Master Plan for this 8-acre suburban campus, and the design of Phase 1, a 7,300 SF Library and Band Building Addition. Significant mechanical and electrical infrastructure upgrades were included for future development. Carole led design charrettes with leadership, parents and students, developing multiple design options and estimates to match Walden’s budget and fund raising goals. Carole was the project lead and designer, while at a previous firm. **[Started 2018/Completed 2019]**

HISTORICAL RESTORATION/REUSE:

Historic Courtroom - Restoration (Florence, AL)^{**} – Restoration of an historic courtroom to its original 1930 design, replacing the 1960s improvements; Located in the John McKinley USPO and Federal U.S. Courthouse, Florence, AL; Winner of a GSA Small-Projects award and an AIA-KY Citation Award for Excellence in Architectural Design. **[Started 2013/Completed 2014]**

Gene Snyder U.S. Courthouse – Various Projects (Louisville, KY)^{**} – Multiple projects associated with this historic courthouse, including an exterior façade analysis, a masonry repair and cleaning project, partial copper roof replacement, structural analysis for a new courtroom addition, a chiller and boiler replacement, historic elevator upgrades, and multiple tenant fitment projects for the U.S. District Court, Social Security Administration and other federal tenants. **[Year Started/Year Completed]**

COMMERCIAL:

Louisville Country Club Master Plan (Louisville, KY) – Project Manager for planning the next phase of upgrades and renovations, including a new indoor/outdoor tennis center and a racket ball and golf training and fitness center. **[Year Started/Year Completed]**

NON-PROFIT/COMMUNITY WORK:

Hopewell Shared Office Renovation (Louisville, KY)^{*} – Project Manager for the Hopewell “work laboratory” project, a shared workspace with amenities and technology to support a multitude of business needs for the community. This project contains conference rooms, huddle rooms and personal work areas for local businesses. Movable modern “DIRTT” walls were incorporated into the design to create flexible and modern office spaces. **[Year Started/Year Completed]**

Family and Children’s Place - Renovation and Addition^{*} (Louisville, KY) – Project Manager/Project Architect for this Master Plan site development; Renovation and Addition to existing 18,000 sf building for Children’s Advocacy Center and a new 10,000 sf Family Service Center in downtown Louisville with a \$6M construction cost. Design included private family rooms, greenspace as a healing environment and therapy rooms. **[Year Started/Year Completed]**

Bridgehaven - New Facility (Louisville, KY) – Project Manager for this new, 16,000 SF, two-story adult psychiatric rehabilitation and recovery center in the Old Louisville historic preservation district. The design focused on teaching and therapy spaces, specifically including elements focused on wellbeing and healing environments. The facility houses offices for clinicians and administrative staff and flexible spaces for about 60 different therapy options Bridgehaven provides. **[Year Started/Year Completed]**

Metro Louisville Animal Adoption Center – Renovation* (Louisville, KY) – New animal adoption center, the first phase of a 40,000 sf master plan to relocate all of the Animal Services for Metro Louisville. **[Year Started/Year Completed]**

RELIGIOUS FACILITIES:

First Presbyterian Church of Lexington Atrium Addition and Renovation# – Project Manager for this 3,000 sf Atrium addition to the historic Sanctuary and Education building that will provide a drop-off at an ADA entry, casket-sized elevator, new staircase, multiple ADA bathrooms and Columbarium Gardens. **[Year Started/Year Completed]**

SECURITY/GOVERNMENT OFFICES:

Kentucky State Capitol – Modernization Project Phase I – Renovation* (Frankfort, KY) – Project Manager for this multiphase project to modernize the mechanical, electrical, low voltage/IT systems, primarily in the lower level of the historic Capitol building. Architectural and structural upgrades include renovated restrooms, added ADA restrooms, replaced concrete slabs, new ceilings, and floor finishes. The scope of work is based on the recently updated Master Plan study, also performed by the KNBA/KLH team. The design work also consists of state agency coordination and consideration of legislative and court sessions, to enable phasing and continued operations of the Capitol. All MEP work will be done in preparation for future infrastructure upgrades to the upper floors. The total cost estimate for this phase is \$15M.

MetroSafe – Emergency Operations Center* (Louisville, KY) – Project Manager/Project Architect for this renovation of an existing 130,000 sf building for co-location of all public safety dispatching, EMA, and first responders for Metro Louisville Government, \$11M construction cost. **[Started 2008/Completed 2009]**

MetroSafe Emergency Operations Center* (Louisville, KY) – Project Manager/Project Architect for this renovation of an existing 130,000 sf building for co-location of all public safety dispatching, EMA, and first responders for Metro Louisville Government, \$11M construction cost.

Federal U.S. Courthouse Security Improvements and Addition* (Lexington, KY) – Security upgrades and the addition of a new Judge’s Elevator, Judge’s Garage, and USMS Sally Port, as well as interior renovations to the USMS offices, prisoner elevator, holding cells, and courtroom in this historic Federal U.S. Courthouse. A separate project addressed the exterior façade, windows, and limestone repairs.

Federal Security Projects* (Various Locations)*

Department of State - Overseas Building Operations: Multiple design-build renovations and security upgrade projects for U.S. embassies, including the U.S. Embassy in Majuro, The Marshall Islands;

Department of Justice - Federal Bureau of Investigations: Multiple design-build renovation projects for Secure Work Environment upgrades to Field Offices and various facilities at the Training Academy at Quantico.

Bureau of Alcohol, Tobacco and Firearms – Renovation* (Louisville, KY) – Field Office 33,000 sf office space renovation in the Mazzoli Federal Building, for their Louisville field office; \$1,500,000.

Courthouse Addition & Security Improvements - U.S.

Courthouse** (Lexington, KY) – Addition of a new Judge’s Elevator, Judge’s Garage, and USMS Sally Port, as well as security improvements and interior renovations to the USMS offices, prisoner elevator, holding cells, and courtroom in this historic Federal U.S. Courthouse. A separate project addressed the exterior façade, windows, and limestone repairs. \$5,500,000 construction cost. **[Started 2015/Completed 2017]**

Gene Snyder U.S. Courthouse – Various Projects** (Louisville, KY) – Multiple projects associated with this historic courthouse, including an exterior façade analysis, a masonry repair and cleaning project, partial copper roof replacement, structural analysis for a new courtroom addition, a chiller and boiler replacement, historic elevator upgrades, and multiple tenant fitment projects for the U.S. District Court, Social Security Administration and other federal tenants.

Historic Courtroom Restoration- John McKinley USPO & U.S. Courthouse** (Florence, AL) – Restoration of an historic courtroom to its original 1930 design, replacing the 1960s improvements; \$750,000. Winner of a GSA Small-Projects award and an AIA-KY Citation Award for Excellence in Architectural Design.

Historic Courtroom Restoration - William Natcher U.S. Courthouse** (Bowling Green, KY) – Design-build project, returning this historic courtroom to original design.
