Explanation of Interest

I am passionate about improving roadway safety across the entire city and for everyone. On a day-to-day basis I need to travel from my home in Germantown to daycare in Russell and work at UofL as well as a part-time job in the Highlands. All of these locations are within a 2.5 mile radius, but I feel "stuck" needing to drive due to the lack of infrastructure to support alternative transportation in Louisville. I love to walk, and I genuinely love to ride the bus (and even have the ability to use TARC for free as a UofL employee), but the city has not connected sufficient infrastructure to make alternative transportation safe and feasible for most residents. As a person with enough privilege to be an advocate on this issue, I would love to give some of my time to help create these improvements for the people who don't have time and resources to do so. Louisville can be a better city for everyone if we follow through on building a connected network of Complete Streets by default.
