

**Board of Zoning Adjustment**  
**Staff Report**  
March 20, 2023

<b>Case No:</b>	22-VARIANCE-0150
<b>Project Name:</b>	Algonquin Parkway Variance
<b>Location:</b>	1740 Algonquin Parkway
<b>Owner:</b>	Closky Properties, LLC
<b>Applicant:</b>	Todd Willett, Willett & Associates Land Surveying INC.
<b>Jurisdiction:</b>	Louisville Metro
<b>Council District:</b>	3 - Kumar Rashad
<b>Case Manager:</b>	Molly Clark, Planner II

**REQUEST:**

**Variance** from Land Development Code section 5.4.1.D.2 to allow a private yard area to be less than the required 20% of the area of the lot.

<b>Location</b>	<b>Requirement</b>	<b>Request</b>	<b>Variance</b>
Private Yard Area	20% or 706 sq. ft.	5% or 201.6 sq. ft	15% or 540 sq. ft.

**CASE SUMMARY/BACKGROUND**

The subject site is zoned R-6 Multi-Family Residential in the Traditional Neighborhood Form District. The property is currently developed with a 1.5 story principal structure and a 1 story accessory structure to the rear of the lot. The applicant is proposing to subdivide the lot into two substandard lots and convert the accessory structure into a single family house.

**STAFF FINDINGS**

Staff finds that the request for a private yard variance is adequately justified and meets the standards of review.

Based upon the information in the staff report, and the testimony and evidence provided at the public hearing, the Board of Zoning Adjustment must determine if the proposal meets the standards for granting a variance established in the Land Development Code.

**TECHNICAL REVIEW**

The applicant is required to obtain a building permit and the structure may require alterations to the proposed building plans in order to meet building code requirements.

**INTERESTED PARTY COMMENTS**

Staff has not received any interested party comments regarding this request.

**RELATED CASES:**

22-MPLAT-0056 – Minor subdivision plat to subdivide one property into two.

**STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE FROM SECTION 5.4.1.D.2 to not provide 20% private yard area:**

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The requested variance will not adversely affect the public health, safety or welfare, because the structure must be constructed to comply with all applicable building codes, including fire codes, and the Land Development Code, except where relief is requested.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The proposed private yard area reduction will not alter the essential character of the general vicinity as many properties in the area seemingly have reduced private yard areas since the neighborhood was constructed before zoning regulations.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public because the structure must be constructed to comply with all building codes.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations as the proposed accessory structure being converted into a single family home will comply with all other regulations, except where relief is requested, and there are other properties within the block that have seemingly reduced open space between the principal and accessory use areas.

**ADDITIONAL CONSIDERATIONS:**

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The requested variance does arise from special circumstances which do not generally apply to the land in the general vicinity or the same zone as the proposed lots are similar in size and shape to the surrounding properties.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant as the applicant is requesting to create substandard lots in order to create additional housing on the site.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are not the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought as the applicant has not converted the accessory structure into a house.

## **VARIANCE PLAN REQUIREMENT**

In accordance with LDC Section 11.5B.1.C (Requirement to Follow Approved Plan), a variance shall be approved only on the basis of the plan approved by the Board and shall be valid only for the location and area shown on the approved plan. All construction and operations must be conducted in accordance with the approved plan and conditions attached to the variance.

### **REQUIRED ACTION:**

**APPROVE** or **DENY** the **VARIANCE** from Land Development Code section 5.4.1.D.2 to allow a private yard area to be less than the required 20% of the area of the lot.
